x **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2018

OR

o **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

Commission File Number: 0-20853

ANSYS, Inc.

(Exact name of registrant as specified in its charter)

Delaware	**04-3219960**
(State or other jurisdiction of incorporation or organization)	**(I.R.S. Employer Identification No.)**
2600 ANSYS Drive, Canonsburg, PA	**15317**
(Address of principal executive offices)	**(Zip Code)**

844-462-6797
(Registrant’s telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes x No o

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes x No o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company (as defined in Exchange Act Rule 12b-2). (Check one):

Large accelerated filer	x	Accelerated filer	o
Non-accelerated filer	o	Smaller reporting company	o
Emerging growth company	o		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

o

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes o No x

The number of shares of the Registrant’s Common Stock, par value $.01 per share, outstanding as of July 31, 2018 was 84,297,814 shares.

ANSYS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2018
(Unaudited)

1. Organization

ANSYS, Inc. (hereafter the Company or ANSYS) develops and globally markets engineering simulation software and services widely used by engineers, designers, researchers and students across a broad spectrum of industries and academia, including aerospace and defense, automotive, electronics, semiconductors, energy, materials and chemical processing, turbomachinery, consumer products, healthcare, and sports.

As defined by the accounting guidance for segment reporting, the Company operates as one segment.

Given the integrated approach to the multi-discipline problem-solving needs of the Company's customers, a single sale of software may contain components from multiple product areas and include combined technologies. The Company also has a multi-year product and integration strategy that will result in new, combined products or changes to the historical product offerings. As a result, it is impracticable for the Company to provide accurate historical or current reporting among its various product lines.

2. Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by ANSYS in accordance with accounting principles generally accepted in the United States for interim financial information for commercial and industrial companies and the instructions to the Quarterly Report on Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, the accompanying statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The accompanying condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements (and notes thereto) included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017. The condensed consolidated December 31, 2017 balance sheet presented is derived from the audited December 31, 2017 balance sheet included in the most recent Annual Report on Form 10-K. In the opinion of management, all adjustments considered necessary for a fair presentation of the financial statements have been included, and all adjustments are of a normal and recurring nature. Certain items in the notes to the condensed consolidated financial statements of prior years have been reclassified to conform to the current year's presentation. These reclassifications had no effect on reported net income, comprehensive income, cash flows, total assets or total liabilities and stockholders' equity. Operating results for the three and six months ended June 30, 2018 are not necessarily indicative of the results that may be expected for any future period.

Changes in Accounting Policies

The Company’s accounting policies are described in Note 2, “Accounting Policies,” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017. Summarized below is the accounting guidance adopted subsequent to December 31, 2017.

Revenue from contracts with customers: In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* (ASU 2014-09). The Company adopted ASU 2014-09 and its related amendments (collectively known as ASC 606) effective January 1, 2018 using the modified retrospective approach. See Note 3 for the required disclosures related to the impact of adopting this standard and a discussion of the Company's updated policies related to revenue recognition.

Income taxes: In October 2016, the FASB issued Accounting Standards Update No. 2016-16, *Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory* (ASU 2016-16). The Company adopted ASU 2016-16 effective January 1, 2018 using the modified retrospective approach. Previous guidance required the tax effects from intra-entity asset transfers to be deferred until the asset was sold to a third party or recovered through use. ASU 2016-16 eliminated this deferral for all intra-entity asset transfers other than inventory. The adoption of the standard did not have a material effect on the Company’s condensed consolidated financial statements.

Business combinations: In January 2017, the FASB issued Accounting Standards Update No. 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business* (ASU 2017-01). The Company prospectively adopted ASU 2017-01 effective January 1, 2018. This standard narrows the definition of a business. If substantially all the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets, the acquiree is not a business. The standard also requires a business to include an input and a substantive process that significantly contributes to the

ability to create outputs. This definition is expected to reduce the number of acquisitions accounted for as business combinations, which will impact the accounting treatment of certain items, including the accounting treatment of contingent consideration and transaction expenses. The acquisition of OPTIS met the definition of a business under ASU 2017-01.

Accounting Guidance Issued and Not Yet Adopted

Leases: In February 2016, the FASB issued Accounting Standards Update No. 2016-02, *Leases (Topic 842)* (ASU 2016-02). ASU 2016-02 requires virtually all leases, other than leases that meet the definition of a short-term lease or leases of intangible assets, to be recorded on the balance sheet with a right-of-use asset and a corresponding lease liability. Leases will be classified as either operating or finance leases based on certain criteria. This classification will determine the timing and presentation of expenses on the income statement, as well as the presentation of related cash flows. The standard is effective for annual periods beginning after December 15, 2018, including interim periods within that reporting period. A modified retrospective transition is required upon adoption. The Company does not expect to early adopt and continues to evaluate the effect that this update will have on its financial results upon adoption. The Company's preliminary assessment is that this update may materially increase the Company's assets and liabilities upon adoption. The Company has completed the initial inventory of its leases and policy elections, and expects that it will primarily have operating leases. The Company is currently developing new processes and controls to meet the accounting and disclosure requirements under the new standard.

Credit losses: In June 2016, the FASB issued Accounting Standards Update No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments* (ASU 2016-13). The current guidance requires the allowance for doubtful accounts to be estimated based on an incurred loss model, which considers past and current conditions. ASU 2016-13 requires companies to use an expected loss model that also considers reasonable and supportable forecasts of future conditions. ASU 2016-13 is effective for annual periods beginning after December 15, 2019, including interim periods within that reporting period. Early adoption is permitted for annual periods beginning after December 15, 2018, including interim periods within that reporting period. The standard requires a cumulative-effect adjustment to the balance sheet as of the beginning of the first reporting period in which the guidance is effective. The Company is currently evaluating the effect that this update will have on its financial results upon adoption.

Cash and Cash Equivalents

Cash and cash equivalents consist primarily of highly liquid investments such as deposits held at major banks and money market funds. Cash equivalents are carried at cost, which approximates fair value. The Company’s cash and cash equivalent balances comprise the following:

	June 30, 2018		December 31, 2017	
(in thousands, except percentages)	**Amount**	**% of Total**	**Amount**	**% of Total**
Cash accounts	**$ 305,154**	**43.9**	$ 568,587	64.5
Money market funds	**390,740**	**56.1**	312,914	35.5
Total	**$ 695,894**		$ 881,501	

The Company's money market fund balances are held in various funds of a single issuer.

3. Revenue from Contracts with Customers

Adoption of ASC 606, *Revenue from Contracts with Customers*

The Company adopted ASC 606 on January 1, 2018 using the modified retrospective approach for all contracts not completed as of the date of adoption. Results for reporting periods beginning after January 1, 2018 are presented under ASC 606, while prior period amounts are not adjusted and continue to be reported in accordance with ASC 605, *Revenue Recognition* (ASC 605). The adoption of ASC 606 represents a change in accounting principle that will more closely align revenue recognition with the delivery of the Company’s software licenses, maintenance and services. ASC 606 requires an entity to evaluate revenue recognition by identifying a contract with a customer, identifying the performance obligations in the contract, determining the transaction price, allocating the transaction price to the performance obligations in the contract, and recognizing revenue when (or as) the entity satisfies a performance obligation.

The Company recorded an increase to retained earnings of $242.4 million, or $183.1 million net of tax, on January 1, 2018 due to the cumulative effect of the ASC 606 adoption, with the impact primarily derived from revenue related to time-based software lease licenses.

Revenue Recognition

Revenue is derived principally from the licensing of computer software products and from related maintenance contracts. The Company enters into contracts that include combinations of products, maintenance and services, which are accounted for as separate performance obligations with differing revenue recognition patterns.

Revenue from perpetual licenses is classified as software license revenue. Software license revenue is recognized up front upon delivery of the licensed product and the utility that enables the customer to access authorization keys, provided that a signed contract has been received. Typically, the Company’s perpetual licenses are sold with post-contract support (PCS), which includes unspecified technical enhancements and customer support. The Company allocates value in bundled perpetual and PCS arrangements based on the standalone selling prices of the perpetual license and PCS. Revenue from PCS is classified as maintenance revenue and is recognized ratably over the term of the contract, as the Company satisfies the PCS performance obligation over time.

In addition to perpetual licenses, the Company sells time-based lease licenses. Lease licenses are sold only as a bundled arrangement that includes the rights to a term software license and PCS. Maximizing the use of observable inputs, the Company determined that 50% of the estimated standalone selling price of the lease license is attributable to the term license and 50% is attributable to the PCS. Consistent with the perpetual sales, the license component is classified as software license revenue and recognized as revenue up front at the commencement of the lease. The PCS is classified as maintenance revenue and is recognized ratably over the term of the contract, as the Company provides the PCS benefit over time.

Revenue from training, support and other services is recognized as the services are performed. For contracts in which the service consists of a single performance obligation, such as providing a training class to a customer, the Company recognizes revenue upon completion of the performance obligation. For service contracts that are longer in duration and often include multiple performance obligations (for example, both training and consulting), the Company measures the progress toward completion of the obligations and recognizes revenue accordingly. In measuring progress towards the completion of performance obligations, the Company typically utilizes output-based estimates for services with contractual billing arrangements that are not based on time and materials, and estimates output based on the total tasks completed as compared to the total tasks required for each work contract. Input-based estimates are utilized for services that involve general consultations with contractual billing arrangements based on time and materials, utilizing direct labor as the input measure.

The Company also executes arrangements through independent channel partners in which the channel partners are authorized to market and distribute the Company's software products to end users of the Company's products and services in specified territories. In sales facilitated by channel partners, the channel partner bears the risk of collection from the end-user customer. The Company recognizes revenue from transactions with channel partners when the channel partner submits a purchase commitment, collectability from the channel partner is probable, a license agreement signed by the end-user customer is received and the performance obligation was met, at a point in time or over time as appropriate, provided that all other revenue recognition criteria are satisfied. Revenue from channel partner transactions is the amount remitted to the Company by the channel partners. This amount includes a fee for PCS that is compensation for providing technical enhancements and the second level of technical support to the end user, which is recognized over the period that PCS is to be provided. The Company does not offer right of return, product rotation or price protection to any of its channel partners.

Non-income related taxes collected from customers and remitted to governmental authorities are recorded on the condensed consolidated balance sheet as accounts receivable and accrued expenses. The collection and payment of these amounts are reported on a net basis in the condensed consolidated statements of income and do not impact reported revenues or expenses.

The Company warrants to its customers that its software will perform substantially as specified in the Company's current user manuals. The Company has not experienced significant claims related to software warranties beyond the scope of maintenance support, which the Company is already obligated to provide. The warranty is not sold, and cannot be purchased, separately. The warranty does not provide any type of additional service to the customer or performance obligation for the Company.

Significant Judgments

The Company’s contracts with customers typically include promises to transfer licenses and services to a customer. Judgment is required to determine if the promises are separate performance obligations, and if so, the allocation of the transaction price to each performance obligation. The Company uses the estimated standalone selling price method to allocate the transaction price for items that are not sold separately, particularly lease licenses sold with PCS. The estimated standalone selling price is determined using all information reasonably available to the Company, including market conditions and other observable inputs. The corresponding revenues are recognized as the related performance obligations are satisfied.

The Company applies a practical expedient to expense sales commissions as incurred when the amortization period would have been one year or less. Certain sales commissions associated with multi-year contracts are subject to an employee service requirement. As an action beyond each party approving the contract is required to trigger these sales commissions, they are not considered incremental costs to obtain a contract and are expensed as incurred.

The Company is required to adjust promised amounts of consideration for the effects of the time value of money if the timing of the payments provides the customer or the Company with a significant financing benefit. The Company considers various factors in assessing whether a financing component exists, including the duration of the contract, market interest rates and the timing of payments. The Company’s contracts do not include a significant financing component requiring adjustment to the transaction price.

Impact of ASC 606 on Condensed Consolidated Financial Statement Line Items

The following table compares the impacted assets and liabilities on the condensed consolidated balance sheet as of June 30, 2018 to the amounts had ASC 605 been in effect:

	June 30, 2018		
(in thousands)	As Reported (ASC 606)	ASC 605	Change
Accounts receivable, less allowance for doubtful accounts of $7,300	**$ 258,280**	$ 102,762	$ 155,518
Other receivables and current assets	**188,542**	271,059	(82,517)
Deferred income tax assets	**14,733**	45,373	(30,640)
Accrued income taxes	**5,700**	3,471	2,229
Other accrued expenses and liabilities	**82,304**	85,263	(2,959)
Deferred revenue - current	**306,879**	462,575	(155,696)
Deferred income tax liabilities	**38,772**	22,947	15,825
Other long-term liabilities	**76,998**	87,802	(10,804)
Stockholders' equity	**2,507,479**	2,313,713	193,766

The Company recorded $244.1 million of deferred revenue to retained earnings upon the adoption of ASC 606 on January 1, 2018. The pattern of software lease license revenue recognition has changed under ASC 606. Software lease license revenue was recognized ratably over the term of the contract under the previous guidance; however, approximately 50% of the contract is recognized up front at the commencement of the lease under ASC 606. This change in the pattern of revenue recognition, coupled with the recording of deferred revenue to retained earnings at the adoption date, resulted in the changes to the condensed consolidated balance sheet line items as noted in the table above.

The following table compares the impacted amounts on the condensed consolidated statement of income for the three and six months ended June 30, 2018 to the amounts had ASC 605 been in effect:

	Three Months Ended June 30, 2018			Six Months Ended June 30, 2018		
(in thousands, except per share data)	As Reported (ASC 606)	ASC 605	Change	As Reported (ASC 606)	ASC 605	Change
Revenue:						
Software licenses	**$ 131,147**	$ 161,193	$ (30,046)	**$ 241,193**	$ 316,050	$ (74,857)
Maintenance and service	**174,766**	132,833	41,933	**347,593**	262,545	85,048
Cost of sales:						
Software licenses	**4,099**	8,444	(4,345)	**8,010**	16,590	(8,580)
Maintenance and service	**27,264**	22,919	4,345	**53,605**	45,025	8,580
Income tax provision	**17,126**	15,423	1,703	**29,884**	28,404	1,480
Earnings per share:						
Basic	**$ 1.10**	$ 0.98	$ 0.12	**$ 2.11**	$ 2.00	$ 0.11
Diluted	**$ 1.08**	$ 0.96	$ 0.12	**$ 2.06**	$ 1.95	$ 0.11

The impacts to reported software licenses revenue, and maintenance and service revenue, were primarily due to the PCS portion of lease license contracts now being allocated to maintenance and service revenue under ASC 606. Under the previous guidance, this revenue was reported as software licenses revenue. This decrease to software licenses revenue was partially offset by the upfront recognition of the license component of lease revenue, which would have been recognized ratably over the contract under prior guidance. Consistent with the change in revenue, there was a corresponding reclassification within cost of sales. Costs incurred related to the PCS portion of lease license contracts were reflected in cost of maintenance and service. Under the previous guidance, such costs were reflected within cost of software licenses.

The adoption of ASC 606 had no impact on the Company’s cash flows from operations. However, with the adoption of ASC 606, there will be an acceleration of income tax payments associated with deferred revenue and backlog credited to retained earnings and never recognized as revenue in the financial statements. The 2018 tax payments related to the adoption of ASC 606 are expected to be $12.0 million - $15.0 million.

Disaggregation of Revenue

The following tables summarize revenue:

	Three Months Ended June 30,		
(in thousands)	2018 (ASC 606)	2018 (ASC 605)	2017 (ASC 605)
Revenue:			
Lease licenses	**$ 56,821**	$ 100,449	$ 92,265
Perpetual licenses	**74,326**	60,744	57,615
Software licenses	**131,147**	161,193	149,880
Maintenance	**165,603**	123,649	107,632
Service	**9,163**	9,184	6,412
Maintenance and service	**174,766**	132,833	114,044
Total revenue	**$ 305,913**	$ 294,026	$ 263,924

The Company’s software licenses revenue is recognized up front, while maintenance and service revenue is generally recognized over the term of the contract. Under ASC 606, the Company derived 23.7% of its total revenue through the indirect sales channel for the three months ended June 30, 2018. Under ASC 605, the Company derived 23.9% and 24.3% of its total revenue through the indirect sales channel for the three months ended June 30, 2018 and 2017, respectively.

(in thousands)	Six Months Ended June 30,		
	2018 (ASC 606)	2018 (ASC 605)	2017 (ASC 605)
Revenue:			
Lease licenses	**$ 105,593**	$ 202,238	$ 185,899
Perpetual licenses	**135,600**	113,812	105,889
Software licenses	**241,193**	316,050	291,788
Maintenance	**329,499**	244,411	212,038
Service	**18,094**	18,134	13,503
Maintenance and service	**347,593**	262,545	225,541
Total revenue	**$ 588,786**	$ 578,595	$ 517,329

Under ASC 606, the Company derived 23.6% of its total revenue through the indirect sales channel for the six months ended June 30, 2018. Under ASC 605, the Company derived 23.4% and 24.4% of its total revenue through the indirect sales channel for the six months ended June 30, 2018 and 2017, respectively.

Deferred Revenue

Deferred revenue consists of billings made or payments received in advance of revenue recognition from software license and maintenance agreements. The timing of revenue recognition may differ from the timing of billings to customers. Payment terms vary by the type and location of customer and the products or services offered. The time between invoicing and when payment is due is not significant. The changes in deferred revenue, inclusive of both current and long-term, are as follows:

(in thousands)	Six Months Ended June 30, 2018
Beginning balance – January 1	**$ 299,730**
Acquired deferred revenue	**2,470**
Recognition of deferred revenue	**(588,786)**
Deferral of revenue	**614,064**
Currency translation	**(3,941)**
Ending balance – June 30	**$ 323,537**

Revenue recognized during the six months ended June 30, 2018 from amounts included in deferred revenue at the beginning of the period was $251.3 million.

Revenue allocated to remaining performance obligations represents contracted revenue that has not yet been recognized, which includes deferred revenue and backlog. The Company's backlog represents installment billings for periods beyond the current quarterly billing cycle and customer orders received but not processed. Total revenue allocated to remaining performance obligations was $586.9 million as of June 30, 2018 and will be recognized as revenue as follows:

(in thousands)	
Next 12 months	**$ 433,066**
Months 13-24	**107,578**
Months 25-36	**36,645**
Thereafter	**9,613**
Total revenue allocated to remaining performance obligations	**$ 586,902**

4. Acquisition

On May 2, 2018, the Company completed the acquisition of 100% of the shares of OPTIS, a premier provider of software for scientific simulation of light, human vision and physics-based visualization, for a purchase price of $291.0 million, paid in cash. The acquisition will extend the Company's portfolio into the area of optical simulation to provide comprehensive sensor solutions, covering visible and infrared light, electromagnetics and acoustics for camera, radar and lidar. The acquisition met the definition of a business under ASU 2017-01.

The operating results of OPTIS have been included in the Company's condensed consolidated financial statements since May 2, 2018, the date of acquisition.

The assets and liabilities of OPTIS have been recorded based upon management's estimates of their fair market values as of the acquisition date. The following tables summarize the fair value of consideration transferred and the fair values of identified assets acquired and liabilities assumed at the acquisition date:

Fair Value of Consideration Transferred:

(in thousands)		
Cash	**$**	**290,983**

Recognized Amounts of Identifiable Assets Acquired and Liabilities Assumed:

(in thousands)		
Cash	$	7,957
Accounts receivable and other tangible assets		17,704
Developed software and core technologies (9 – 10 year life)		47,795
Customer lists (12 year life)		41,303
Trade names (4 – 10 year life)		10,749
Accounts payable and other liabilities		(13,096)
Deferred revenue		(2,470)
Net deferred tax liabilities		(21,692)
Total identifiable net assets	**$**	**88,250**
Goodwill	**$**	**202,733**

The goodwill, which is not tax-deductible, is attributed to intangible assets that do not qualify for separate recognition, including the assembled workforce of the acquired business and the synergies expected to arise as a result of the acquisition of OPTIS.

The fair values of the assets acquired and liabilities assumed are based on preliminary calculations. The estimates and assumptions for these items are subject to change as additional information about what was known and knowable at the acquisition date is obtained during the measurement period (up to one year from the acquisition date).

In valuing deferred revenue on the OPTIS balance sheet as of the acquisition date, the Company applied the fair value provisions applicable to the accounting for business combinations. Acquired deferred revenue with a historical carrying value of $14.2 million under ASC 606, and $22.3 million under ASC 605, was ascribed a fair value of $2.5 million on the opening balance sheet. As a result, the Company's post-acquisition revenue will be less than the sum of what would have otherwise been reported by ANSYS and OPTIS absent the acquisition. Under ASC 606, the impact on reported revenue was $2.8 million for the quarter ended June 30, 2018. The expected impacts on reported revenue are $3.5 million and $8.8 million for the quarter ending September 30, 2018 and for the year ending December 31, 2018, respectively. Under ASC 605, the impact on reported revenue was $4.5 million for the quarter ended June 30, 2018. The expected impacts on reported revenue are $5.8 million and $14.5 million for the quarter ending September 30, 2018 and for the year ending December 31, 2018, respectively.

Full pro forma results of operations have not been presented as the effects of the OPTIS business combination were not material to the Company's consolidated results of operations. The table presented below reflects the impact of OPTIS from the date of acquisition to June 30, 2018. The operating loss is derived from the OPTIS legal structure and does not include integration costs borne directly by ANSYS, Inc. and its non-OPTIS subsidiaries as a result of the acquisition.

(in thousands)	ASC 606	ASC 605
Revenue	**$ 3,166**	$ 2,070
Operating loss	**$ (3,312)**	$ (4,408)

5. Receivables, Other Current Assets and Other Accrued Expenses and Liabilities

The Company's receivables, other current assets and other accrued expenses and liabilities comprise the following balances:

(in thousands)	June 30, 2018	December 31, 2017
Accounts receivable, less allowance for doubtful accounts of $7,300 and $6,800, respectively	**$ 258,280**	$ 124,659
Receivables related to unrecognized revenue	**$ 116,119**	$ 215,155
Income taxes receivable, including overpayments and refunds	**35,615**	21,663
Prepaid expenses and other current assets	**36,808**	27,002
Total other receivables and current assets	**$ 188,542**	$ 263,820
Accrued vacation	**$ 22,108**	$ 17,466
Accrued expenses and other current liabilities	**60,196**	68,869
Total other accrued expenses and liabilities	**$ 82,304**	$ 86,335

Receivables for unrecognized revenue represent the current portion of billings made for software maintenance that have not yet been recognized as revenue.

The opening balances of accounts receivable and receivables related to unrecognized revenue, upon the adoption of ASC 606 at January 1, 2018, were $278.8 million and $136.4 million, respectively.

6. Earnings Per Share

Basic earnings per share (EPS) amounts are computed by dividing earnings by the weighted average number of common shares outstanding during the period. Diluted EPS amounts assume the issuance of common stock for all potentially dilutive equivalents outstanding. To the extent stock awards are anti-dilutive, they are excluded from the calculation of diluted EPS.

The details of basic and diluted EPS are as follows:

	Three Months Ended		Six Months Ended	
(in thousands, except per share data)	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Net income	**$ 92,596**	$ 69,730	**$ 176,876**	$ 133,036
Weighted average shares outstanding – basic	**84,105**	85,167	**84,018**	85,311
Dilutive effect of stock plans	**1,881**	1,728	**2,051**	1,749
Weighted average shares outstanding – diluted	**85,986**	86,895	**86,069**	87,060
Basic earnings per share	**$ 1.10**	$ 0.82	**$ 2.11**	$ 1.56
Diluted earnings per share	**$ 1.08**	$ 0.80	**$ 2.06**	$ 1.53
Anti-dilutive shares	**—**	—	**—**	154

7. Goodwill and Intangible Assets

The Company's intangible assets and estimated useful lives are classified as follows:

	June 30, 2018		December 31, 2017	
(in thousands)	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Finite-lived intangible assets:				
Developed software and core technologies (3 – 11 years)	**$ 411,991**	**$ (308,176)**	$ 365,317	$ (297,645)
Customer lists and contract backlog (5 – 15 years)	**210,118**	**(110,886)**	171,048	(104,522)
Trade names (2 – 10 years)	**137,499**	**(111,249)**	127,200	(104,130)
Total	**$ 759,608**	**$ (530,311)**	$ 663,565	$ (506,297)
Indefinite-lived intangible asset:				
Trade name	**$ 357**		$ 357	

Amortization expense for the intangible assets reflected above was $12.6 million and $12.1 million for the three months ended June 30, 2018 and 2017, respectively. Amortization expense for the intangible assets reflected above was $24.8 million and $24.1 million for the six months ended June 30, 2018 and 2017, respectively.

As of June 30, 2018, estimated future amortization expense for the intangible assets reflected above is as follows:

(in thousands)	
Remainder of 2018	$ 16,205
2019	31,830
2020	32,942
2021	30,140
2022	26,438
2023	23,526
Thereafter	68,216
Total intangible assets subject to amortization	229,297
Indefinite-lived trade name	357
Other intangible assets, net	**$ 229,654**

The changes in goodwill during the six months ended June 30, 2018 and 2017 were as follows:

(in thousands)	2018	2017
Beginning balance – January 1	**$ 1,378,553**	$ 1,337,215
Acquisitions	**202,733**	2,586
Currency translation and other	**(6,010)**	3,167
Ending balance – June 30	**$ 1,575,276**	$ 1,342,968

During the first quarter of 2018, the Company completed the annual impairment test for goodwill and the indefinite-lived intangible asset and determined that these assets had not been impaired as of the test date, January 1, 2018. No other events or circumstances changed during the six months ended June 30, 2018 that would indicate that the fair values of the Company's reporting unit and indefinite-lived intangible asset are below their carrying amounts.

8. Fair Value Measurement

The valuation hierarchy for disclosure of assets and liabilities reported at fair value prioritizes the inputs for such valuations into three broad levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument; or
- Level 3: unobservable inputs based on the Company's own assumptions used to measure assets and liabilities at fair value.

A financial asset's or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

The following tables provide the assets carried at fair value and measured on a recurring basis:

		Fair Value Measurements at Reporting Date Using:		
(in thousands)	**June 30, 2018**	**Quoted Prices in Active Markets (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**
Assets				
Cash equivalents	**$ 390,740**	**$ 390,740**	**$ —**	**$ —**
Short-term investments	**$ 269**	**$ —**	**$ 269**	**$ —**
Deferred compensation plan investments	**$ 1,379**	**$ 1,379**	**$ —**	**$ —**

		Fair Value Measurements at Reporting Date Using:		
(in thousands)	**December 31, 2017**	**Quoted Prices in Active Markets (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**
Assets				
Cash equivalents	$ 312,914	$ 312,914	$ —	$ —
Short-term investments	$ 286	$ —	$ 286	$ —
Deferred compensation plan investments	$ 3,742	$ 3,742	$ —	$ —

The cash equivalents in the preceding tables represent money market funds.

The short-term investments in the preceding tables represent deposits held by certain foreign subsidiaries of the Company. The deposits have fixed interest rates with maturity dates ranging from three months to one year.

The deferred compensation plan investments in the preceding tables represent trading securities held in a rabbi trust for the benefit of the non-employee directors. These securities consist of mutual funds traded in an active market with quoted prices. As a result, the plan assets are classified as Level 1 in the fair value hierarchy. The plan assets are recorded within other long-term assets on the Company's condensed consolidated balance sheets.

The carrying values of cash, accounts receivable, accounts payable, accrued expenses, other accrued liabilities and short-term obligations approximate their fair values because of their short-term nature.

9. Income Taxes

Tax Cuts and Jobs Act

On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (Tax Reform), making broad and complex changes to the U.S. tax code. The SEC staff issued Staff Accounting Bulletin (SAB) 118, which provides guidance on accounting for the tax effects of Tax Reform and allows for provisional adjustments recorded in the December 31, 2017 financial statements to be adjusted as calculations are completed during the measurement period. SAB 118 provides a measurement period that should not extend beyond one year from enactment for companies to complete the accounting under ASC 740, *Income Taxes*. As further discussed below, in accordance with SAB 118, the Company was able to complete final or provisional calculations for certain elements of Tax Reform, and the amounts and estimates are included in the financial statements and have been updated as additional information was gathered. For other elements, the Company was not yet able to make reasonable estimates, and therefore, those elements have not been recorded and are accounted for in accordance with ASC 740 on the basis of the tax laws in effect before Tax Reform.

The Company's accounting for the transition tax is incomplete. However, reasonable estimates of certain effects could be calculated, and a provisional adjustment of $16.0 million was recorded in the December 31, 2017 financial statements. To determine the amount of the transition tax, the Company must determine, in addition to other factors, the amount of post-1986 earnings and profits (E&P) of the relevant subsidiaries, as well as the amount of non-U.S. income taxes paid on such earnings. Based on revised E&P calculations updated during the measurement period, the Company recognized an additional measurement-period adjustment of $1.4 million to the transition tax obligation, with a corresponding adjustment of $1.4 million to tax expense, during the quarter ended March 31, 2018. A total transition tax obligation of $17.4 million has been recorded. Since the Company plans to elect to pay this liability over eight years, $14.3 million of the obligation is recorded in other long-term liabilities, with the balance recorded to accrued income taxes. The Company will continue to gather additional information to more precisely compute the final amount as further adjustments to E&P are determined. The Company expects to complete the accounting within the prescribed measurement period.

The Company's accounting for the indefinite reinvestment assertion is incomplete. However, a reasonable estimate of book and tax basis was calculated, and the Company made a provisional assertion. In general, it is the practice and intention of the Company to repatriate previously taxed earnings and to reinvest all other earnings of its non-U.S. subsidiaries. As part of Tax Reform, the Company incurred U.S. tax on substantially all of the earnings of its non-U.S. subsidiaries as part of the transition tax. This tax increased the Company's previously taxed earnings and allows for the repatriation of the majority of its foreign earnings without any residual U.S. federal tax. The Company does not believe that there is an excess of the financial reporting basis over the tax basis of investments in foreign subsidiaries. Accordingly, any repatriation in excess of previously taxed earnings will be a non-taxable return of basis. This assertion is subject to change as additional information is gathered to precisely compute the book and tax basis of the Company's non-U.S. subsidiaries. During the quarter ended June 30, 2018, the Company repatriated $144.3 million of foreign cash. The Company has not made any measurement-period adjustments related to its indefinite reinvestment assertion during the six months ended June 30, 2018. However, the Company will continue to gather additional information and expects to complete the accounting within the measurement period.

The Company's accounting for the global intangible low-taxed income tax (GILTI) is incomplete. Due to the complexity of the new GILTI tax rules, the Company is continuing to evaluate this provision of Tax Reform and its application under ASC 740. Under U.S. GAAP, the Company is allowed to make an accounting policy choice of either (1) treating taxes due on future U.S. inclusions in taxable income related to GILTI as a current-period expense when incurred (the period cost method) or (2) factoring such amounts into the Company's measurement of its deferred taxes (the deferred method). The Company's selection of an accounting policy with respect to the new GILTI tax rules will depend, in part, on analyzing global income to determine whether future U.S. inclusions in taxable income related to GILTI are expected and, if so, the anticipated impact. Whether the Company expects to have future U.S. inclusions in taxable income related to GILTI depends not only on the current structure and estimated future results of global operations, but also on the Company's intent and ability to modify the structure and/or the business. The Company has not made the accounting policy decision regarding whether to record deferred taxes on GILTI or expense taxes as incurred on GILTI. The current GILTI impact, which was immaterial for the three and six months ended June 30, 2018, was recorded in the financial statements. The Company expects to complete the accounting for GILTI within the prescribed measurement period.

Other Income Tax Matters

The Company has $29.2 million of unrecognized tax benefits, including estimated interest and penalties, that have been recorded in other long-term liabilities in accordance with income tax accounting guidance and for which the Company is uncertain as to if or when such amounts may be settled.

10. Geographic Information

Revenue to external customers is attributed to individual countries based upon the location of the customer. Revenue by geographic area is as follows:

	Three Months Ended June 30,		
(in thousands)	2018 (ASC 606)	2018 (ASC 605)	2017 (ASC 605)
United States	**$ 122,790**	$ 116,169	$ 100,413
Japan	**42,140**	34,046	32,361
Germany	**23,893**	28,145	25,649
South Korea	**17,471**	16,682	16,672
France	**14,051**	14,599	12,369
Other Europe, Middle East and Africa (EMEA)	**48,099**	46,932	39,418
Other international	**37,469**	37,453	37,042
Total revenue	**$ 305,913**	$ 294,026	$ 263,924

	Six Months Ended June 30,		
(in thousands)	2018 (ASC 606)	2018 (ASC 605)	2017 (ASC 605)
United States	**$ 221,555**	$ 224,755	$ 200,181
Japan	**72,741**	68,458	63,833
Germany	**69,431**	61,534	50,765

Other international	**70,814**	71,800	71,693
Total revenue	**$ 588,786**	$ 578,595	$ 517,329

Property and equipment by geographic area is as follows:

(in thousands)	June 30, 2018	December 31, 2017
United States	**$ 43,487**	$ 45,498
EMEA	**6,363**	5,114
India	**3,320**	3,704
Other international	**3,331**	2,780
Total property and equipment, net	**$ 56,501**	$ 57,096

11. Stock-Based Compensation

Total stock-based compensation expense and its net impact on basic and diluted earnings per share are as follows:

(in thousands, except per share data)	Three Months Ended June 30, 2018	Three Months Ended June 30, 2017	Six Months Ended June 30, 2018	Six Months Ended June 30, 2017
Cost of sales:				
Software licenses	**$ —**	$ 321	**$ —**	$ 571
Maintenance and service	**1,432**	729	**2,442**	1,155
Operating expenses:				
Selling, general and administrative	**11,526**	8,572	**19,804**	14,528
Research and development	**7,677**	4,500	**13,658**	8,381
Stock-based compensation expense before taxes	**20,635**	14,122	**35,904**	24,635
Related income tax benefits	**(10,396)**	(7,479)	**(21,700)**	(17,900)
Stock-based compensation expense, net of taxes	**$ 10,239**	$ 6,643	**$ 14,204**	$ 6,735
Net impact on earnings per share:				
Basic earnings per share	**$ (0.12)**	$ (0.08)	**$ (0.17)**	$ (0.08)
Diluted earnings per share	**$ (0.12)**	$ (0.08)	**$ (0.17)**	$ (0.08)

12. Stock Repurchase Program

Under the Company's stock repurchase program, the Company repurchased shares as follows:

(in thousands, except per share data)	Six Months Ended June 30, 2018	Six Months Ended June 30, 2017
Number of shares repurchased	**750**	2,000
Average price paid per share	**$ 157.11**	$ 111.65
Total cost	**$ 117,831**	$ 223,291

In February 2018, the Company's Board of Directors increased the number of shares authorized for repurchase to a total of 5.0 million shares under the stock repurchase program. As of June 30, 2018, 4.8 million shares remained available for repurchase under the program.

13. Restructuring

During the fourth quarter of 2016, the Company initiated workforce realignment activities to reallocate resources to align with the Company's future strategic plans. The Company completed the workforce realignment activities as of September 30, 2017. The Company incurred related restructuring charges as follows:

(in thousands)	Gross	Net of Tax
Q4 2016	$ 3,419	$ 2,355
Q1 2017	9,273	6,176
Q2 2017	2,000	1,435
Q3 2017	466	331
Total restructuring charges	**$ 15,158**	**$ 10,297**

The restructuring charges are included in the presentation of cost of software licenses; cost of maintenance and service; research and development expense; and selling, general and administrative expense. The gross charges were fully paid as of March 31, 2018.

14. Contingencies and Commitments

The Company is subject to various investigations, claims and legal proceedings that arise in the ordinary course of business, including commercial disputes, labor and employment matters, tax audits, alleged infringement of intellectual property rights and other matters. In the opinion of the Company, the resolution of pending matters is not expected to have a material adverse effect on the Company's consolidated results of operations, cash flows or financial position. However, each of these matters is subject to various uncertainties and it is possible that an unfavorable resolution of one or more of these proceedings could materially affect the Company's results of operations, cash flows or financial position.

An Indian subsidiary of the Company has several service tax audits pending that have resulted in formal inquiries being received on transactions through mid-2012. The Company could incur tax charges and related liabilities of approximately $7.1 million. The service tax issues raised in the Company’s notices and inquiries are very similar to the case, M/s Microsoft Corporation (I) (P) Ltd. Vs Commissioner of Service Tax, New Delhi, wherein the Delhi Customs, Excise and Service Tax Appellate Tribunal (CESTAT) has passed a favorable ruling to Microsoft. The Company can provide no assurances on whether the Microsoft case’s favorable ruling will be challenged in higher courts or on the impact that the present Microsoft case’s decision will have on the Company’s cases. The Company is uncertain as to when these service tax matters will be concluded.

The Company sells software licenses and services to its customers under proprietary software license agreements. Each license agreement contains the relevant terms of the contractual arrangement with the customer, and generally includes certain provisions for indemnifying the customer against losses, expenses and liabilities from damages that are incurred by or awarded against the customer in the event the Company's software or services are found to infringe upon a patent, copyright or other proprietary right of a third party. To date, the Company has not had to reimburse any of its customers for any losses related to these indemnification provisions and no material claims asserted under these indemnification provisions are outstanding as of June 30, 2018. For several reasons, including the lack of prior material indemnification claims, the Company cannot determine the maximum amount of potential future payments, if any, related to such indemnification provisions.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of ANSYS, Inc.

Results of Review of Interim Financial Information

We have reviewed the accompanying condensed consolidated balance sheet of ANSYS, Inc. and subsidiaries (the “Company”) as of June 30, 2018, the related condensed consolidated statements of income and comprehensive income for the three-month and six-month periods then ended and of cash flows for the six-month period then ended, and the related notes (collectively referred to as the “interim financial information"). Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheet of the Company as of December 31, 2017, and the related consolidated statements of income, comprehensive income, stockholders’ equity, and cash flows for the year then ended (not presented herein); and in our report dated February 22, 2018, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2017, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Basis for Review Results

This interim financial information is the responsibility of the Company's management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our review in accordance with standards of the PCAOB. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Overview:

Overall GAAP Results

The Company's growth rates of GAAP results for the three and six months ended June 30, 2018 as compared to the three and six months ended June 30, 2017 were as follows:

	Three Months Ended June 30, 2018			Six Months Ended June 30, 2018		
	Under ASC 605	Impact of ASC 606 Adoption	Total	Under ASC 605	Impact of ASC 606 Adoption	Total
Revenue	11.4 %	4.5%	**15.9%**	11.8%	2.0%	**13.8%**
Operating income	(1.8)%	12.1%	**10.3%**	5.2%	5.5%	**10.7%**
Diluted earnings per share	20.0 %	15.0%	**35.0%**	27.5%	7.1%	**34.6%**

Under ASC 605, the Company experienced higher revenue in 2018 across all classes of revenue, including license revenue, maintenance and services. The Company also experienced increased operating expenses primarily due to increased personnel costs, higher stock-based compensation, a weaker U.S. Dollar and OPTIS expenses for the period from the acquisition date (May 2, 2018) through June 30, 2018. These increases were partially offset by restructuring in the first half of 2017 that did not reoccur in 2018.

Overall Non-GAAP Results

The Company's growth rates of non-GAAP results for the three and six months ended June 30, 2018 as compared to the three and six months ended June 30, 2017 were as follows:

	Three Months Ended June 30, 2018			Six Months Ended June 30, 2018		
	Under ASC 605	Impact of ASC 606 Adoption	Total	Under ASC 605	Impact of ASC 606 Adoption	Total
Revenue	13.1%	3.7%	**16.8%**	12.8%	1.5%	**14.3%**
Operating income	6.7%	7.8%	**14.5%**	8.3%	3.3%	**11.6%**
Diluted earnings per share	25.3%	11.1%	**36.4%**	30.9%	4.2%	**35.1%**

The non-GAAP results exclude the income statement effects of the acquisition accounting adjustment to deferred revenue, stock-based compensation, amortization of acquired intangible assets, restructuring charges, transaction costs related to business combinations, and the impact of the enactment of the Tax Cuts and Jobs Act. For further disclosure regarding non-GAAP results, see the section titled "Non-GAAP Results" immediately preceding the section titled "Liquidity and Capital Resources."

Impact of OPTIS

On May 2, 2018, the Company completed the acquisition of OPTIS. The table presented below reflects the impact of OPTIS from the date of acquisition to June 30, 2018. The operating (loss) income is derived from the OPTIS legal structure and does not include integration costs borne directly by ANSYS, Inc. and its non-OPTIS subsidiaries as a result of the acquisition.

	ASC 606		ASC 605	
(in thousands)	**GAAP**	**Non-GAAP**	**GAAP**	**Non-GAAP**
Revenue	**$ 3,166**	$ 5,921	$ 2,070	$ 6,603
Operating (loss) income	**$ (3,312)**	$ (89)	$ (4,408)	$ 593

Impact of Foreign Currency

The Company's comparative financial results were impacted by fluctuations in the U.S. Dollar during the three and six months ended June 30, 2018 as compared to the three and six months ended June 30, 2017. The impacts on the Company's revenue and operating income due to currency fluctuations are reflected in the tables below.

	Three Months Ended June 30, 2018			
	ASC 606		ASC 605	
(in thousands)	GAAP	Non-GAAP	GAAP	Non-GAAP
Revenue	**$ 6,254**	$ 6,333	$ 6,671	$ 6,805
Operating income	**$ 2,858**	$ 3,051	$ 3,760	$ 3,525

	Six Months Ended June 30, 2018			
	ASC 606		ASC 605	
(in thousands)	GAAP	Non-GAAP	GAAP	Non-GAAP
Revenue	**$ 22,259**	$ 22,341	$ 20,936	$ 21,074
Operating income	**$ 12,406**	$ 12,783	$ 11,564	$ 11,513

Using ASC 606 and ASC 605 results for the three and six months ended June 30, 2018 and 2017, respectively, the Company's constant currency[(1)] growth rates were as follows:

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2018	
	GAAP	Non-GAAP	GAAP	Non-GAAP
Revenue	**13.5%**	14.4%	**9.5%**	10.0%
Operating income	**7.4%**	12.2%	**4.0%**	6.4%

In constant currency, the Company's growth rates under ASC 605 were as follows:

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2018	
	GAAP	Non-GAAP	GAAP	Non-GAAP
Revenue	8.9 %	10.5%	7.8 %	8.7%
Operating income	(5.6)%	4.0%	(1.1)%	3.6%

[(1)] Constant currency amounts exclude the effect of foreign currency fluctuations on the reported results. To present this information, the 2018 results for entities whose functional currency is a currency other than the U.S. Dollar were converted to U.S. Dollars at rates that were in effect for 2017, rather than the actual exchange rates in effect for 2018.

Other Financial Information

The Company’s financial position includes $696.2 million in cash and short-term investments, and working capital of $708.0 million as of June 30, 2018.

During the six months ended June 30, 2018, the Company repurchased 0.8 million shares for $117.8 million at an average price of $157.11 per share.

Business:

ANSYS develops and globally markets engineering simulation software and services widely used by engineers, designers, researchers and students across a broad spectrum of industries and academia, including aerospace and defense, automotive, electronics, semiconductors, energy, materials and chemical processing, turbomachinery, consumer products, healthcare, and sports. Headquartered south of Pittsburgh, Pennsylvania, the Company employed approximately 3,200 people as of June 30, 2018. ANSYS focuses on the development of open and flexible solutions that enable users to analyze designs directly on the desktop, providing a common platform for fast, efficient and cost-conscious product development, from design concept to final-stage testing and validation. The Company distributes its suite of simulation technologies through a global network of independent channel partners and direct sales offices in strategic, global locations. It is the Company’s intention to continue to maintain this hybrid sales and distribution model.

The Company licenses its technology to businesses, educational institutions and governmental agencies. Growth in the Company’s revenue is affected by the strength of global economies, general business conditions, currency exchange rate

fluctuations, customer budgetary constraints and the competitive position of the Company’s products. The Company believes that the features, functionality and integrated multiphysics capabilities of its software products are as strong as they have ever been. However, the software business is generally characterized by long sales cycles. These long sales cycles increase the difficulty of predicting sales for any particular quarter. The Company makes many operational and strategic decisions based upon short- and long-term sales forecasts that are impacted not only by these long sales cycles but also by current global economic conditions. As a result, the Company believes that its overall performance is best measured by fiscal-year results rather than by quarterly results.

The Company’s management considers the competition and price pressure that it faces in the short- and long-term by focusing on expanding the breadth, depth, ease of use and quality of the technologies, features, functionality and integrated multiphysics capabilities of its software products as compared to its competitors; investing in research and development to develop new and innovative products and increase the capabilities of its existing products; supplying new products and services; focusing on customer needs, training, consulting and support; and enhancing its distribution channels. From time to time, the Company also considers acquisitions to supplement its global engineering talent, product offerings and distribution channels.

Geographic Trends:

Compared to the ASC 605 revenue for the three and six months ended June 30, 2017, the Company's geographic constant currency revenue growth during the three and six months ended June 30, 2018 was as follows:

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2018	
	ASC 606	ASC 605	ASC 606	ASC 605
Americas	**20.2%**	14.1%	**8.7%**	10.5%
EMEA	**4.7%**	8.7%	**14.4%**	8.9%
Asia-Pacific	**13.2%**	2.1%	**5.8%**	3.0%
Total	**13.5%**	8.9%	**9.5%**	7.8%

Due to the change in revenue recognition under ASC 606, the ASC 606 growth rates presented above, which compare the 2018 results under ASC 606 to the 2017 results under ASC 605, are less representative of the underlying operations of each region than those presented under ASC 605.

The Company continues to focus on a number of sales improvement activities across the geographic regions, including sales hiring, pipeline building, productivity initiatives and customer engagement activities.

Industry Commentary:

The automotive industry remained strong, and continued to be driven by several technology trends, most notably investments in autonomous vehicles and electrification. The high-tech industry also showed continued momentum as companies drove innovation and investments in smart connected products, 5G and artificial intelligence. The industrial equipment industry strengthened in the second quarter, especially in the areas of pumping systems and rotating machinery, as reliability and durability remained a priority. Oil and gas in the North Sea showed signs of improvement.

Note About Forward-Looking Statements

The following discussion should be read in conjunction with the accompanying unaudited condensed consolidated financial statements and notes thereto for the six months ended June 30, 2018, and with the Company’s audited consolidated financial statements and notes thereto for the year ended December 31, 2017 filed on the Annual Report on Form 10-K with the Securities and Exchange Commission. The Company’s discussion and analysis of its financial condition and results of operations are based upon the Company’s condensed consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, the Company evaluates its estimates, including those related to the fair values of stock awards, bad debts, contract revenue, acquired deferred revenue, the standalone selling prices of its products and services, the valuation of goodwill and other intangible assets, deferred compensation, income taxes, uncertain tax positions, tax valuation reserves, useful lives for depreciation and amortization, and contingencies and litigation. The Company bases its estimates on historical experience, market experience, estimated future cash flows and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates.

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including, but not limited to, the following statements, as well as statements that contain such words as "anticipates", "intends", "believes", "plans" and other similar expressions:

- The Company's assessment of the ultimate liabilities arising from various investigations, claims and legal proceedings.
- The Company's expectations regarding the outcome of its service tax audit cases.
- The Company's expectations regarding future claims related to indemnification obligations.
- The Company's expectations regarding the impacts of new accounting guidance.
- The Company's intentions regarding its hybrid sales and distribution model.
- The Company's statement regarding the strength of the features, functionality and integrated multiphysics capabilities of its software products.
- The Company's belief that its overall performance is best measured by fiscal-year results rather than by quarterly results.
- The Company's expectations regarding the adverse impact on license and maintenance revenue growth in the near term, as well as increased lease license volatility, due to an increased customer preference for time-based licenses.
- The Company's estimates regarding the expected impact on reported revenue related to the acquisition accounting treatment of deferred revenue.
- The Company's expectation that it will continue to make targeted investments in its global sales and marketing organization and its global business infrastructure to enhance and support its revenue-generating activities.
- The Company's intentions related to investments in research and development, particularly as it relates to expanding the ease of use and capabilities of its broad portfolio of simulation software products.
- The Company's intention to repatriate previously taxed earnings and to reinvest all other earnings of its non-U.S. subsidiaries.
- The Company's plans related to future capital spending.
- The sufficiency of existing cash and cash equivalent balances to meet future working capital and capital expenditure requirements.
- The Company's belief that the best uses of its excess cash are to invest in the business and to repurchase stock in order to both offset dilution and return capital to stockholders, in excess of its requirements, with the goal of increasing stockholder value.
- The Company's intentions related to investments in complementary companies, products, services and technologies.
- The Company's expectation that changes in currency exchange rates will affect the Company's financial position, results of operations and cash flows.
- The Company's expectations regarding the impacts of the Tax Cuts and Jobs Act.

Forward-looking statements should not be unduly relied upon because they involve known and unknown risks, uncertainties and other factors, some of which are beyond the Company’s control. The Company’s actual results could differ materially from those set forth in forward-looking statements. Certain factors, among others, that might cause such a difference include risks and uncertainties disclosed in the Company’s most recent Annual Report on Form 10-K, Part I, Item 1A. Information regarding new risk factors or material changes to these risk factors have been included within Part II, Item 1A of this Quarterly Report on Form 10-Q.

Table of Contents

Results of Operations

Three Months Ended June 30, 2018 Compared to Three Months Ended June 30, 2017

Revenue:

	Three Months Ended June 30,		Change		
(in thousands, except percentages)	2018 (ASC 606)	2017 (ASC 605)	Amount	%	Constant Currency %
Revenue:					
Lease licenses	**$ 56,821**	$ 92,265	$ (35,444)	(38.4)	(39.2)
Perpetual licenses	**74,326**	57,615	16,711	29.0	27.2
Software licenses	**131,147**	149,880	(18,733)	(12.5)	(13.7)
Maintenance	**165,603**	107,632	57,971	53.9	49.9
Service	**9,163**	6,412	2,751	42.9	40.1
Maintenance and service	**174,766**	114,044	60,722	53.2	49.3
Total revenue	**$ 305,913**	$ 263,924	$ 41,989	15.9	13.5

The Company adopted ASC 606 on January 1, 2018 using the modified retrospective approach for all contracts not completed as of the date of adoption. The adoption of ASC 606 significantly impacted the timing, allocation and presentation of lease license, perpetual license and maintenance revenue. Among the most significant changes is the PCS portion of lease license contracts now being allocated to maintenance revenue. Under the previous guidance, this revenue was reported as lease licenses revenue. This decrease to lease licenses revenue was partially offset by the upfront recognition of the license component of lease revenue, which would have been recognized ratably over the contract under the prior guidance. For further information on the impact of this adoption on the Company's results, see Note 3 to the condensed consolidated financial statements included in Item 1 of this Quarterly Report on Form 10-Q.

For purposes of comparability, the changes in the following table and discussion are presented in accordance with ASC 605.

	Three Months Ended June 30,		Change		
(in thousands, except percentages)	2018 (ASC 605)	2017 (ASC 605)	Amount	%	Constant Currency %
Revenue:					
Lease licenses	$ 100,449	$ 92,265	$ 8,184	8.9	6.9
Perpetual licenses	60,744	57,615	3,129	5.4	3.7
Software licenses	161,193	149,880	11,313	7.5	5.7
Maintenance	123,649	107,632	16,017	14.9	11.5
Service	9,184	6,412	2,772	43.2	40.4
Maintenance and service	132,833	114,044	18,789	16.5	13.1
Total revenue	$ 294,026	$ 263,924	$ 30,102	11.4	8.9

The Company’s ASC 605 revenue in the quarter ended June 30, 2018 increased 11.4% as compared to the quarter ended June 30, 2017, while revenue grew 8.9% in constant currency. The growth rate was favorably impacted by the Company’s continued investment in its global sales, support and marketing organizations. Perpetual license revenue, which is derived primarily from new sales during the quarter, increased 5.4%, or 3.7% in constant currency, as compared to the prior-year quarter. Lease license revenue increased 8.9%, or 6.9% in constant currency, as compared to the prior-year quarter. Annual maintenance contracts that were sold with new perpetual licenses, along with maintenance contracts for new perpetual licenses sold in previous quarters, contributed to maintenance revenue growth of 14.9%, or 11.5% in constant currency. Service revenue, driven primarily by a focus on service offerings that provide on-site mentorship on simulation best practices, training and expanding simulation adoption, increased 43.2%, or 40.4% in constant currency, as compared to the prior-year quarter.

With respect to revenue, on average for the quarter ended June 30, 2018, the U.S. Dollar was approximately 4.1% weaker and 4.8% weaker, when measured against the Company’s primary foreign currencies, than for the quarter ended June 30, 2017 under ASC 606 and ASC 605, respectively. The table below presents the impacts of currency fluctuations on revenue for the quarter ended June 30, 2018. Amounts in brackets indicate a net adverse impact from currency fluctuations.

	Three Months Ended June 30, 2018	
(in thousands)	**ASC 606**	**ASC 605**
Euro	**$ 4,708**	$ 5,155
Japanese Yen	**709**	562
South Korean Won	**580**	567
British Pound	**439**	495
Other	**(182)**	(108)
Total	**$ 6,254**	$ 6,671

The net overall weaker U.S. Dollar also resulted in increased operating income of $2.9 million and $3.8 million for the quarter ended June 30, 2018 as compared to the quarter ended June 30, 2017 under ASC 606 and ASC 605, respectively.

A substantial portion of the Company's lease license and maintenance revenue is derived from annual lease and maintenance contracts. These contracts are generally renewed on an annual basis and have a high rate of customer renewal. In addition to the recurring revenue base associated with these contracts, a majority of customers purchasing new perpetual licenses also purchase related annual maintenance contracts. As a result of the significant recurring revenue base, the Company's lease license and maintenance revenue growth rate in any period does not necessarily correlate to the growth rate of new licenses sold during that period under ASC 605. The same is true for maintenance revenue growth under ASC 606. However, under ASC 606, lease license revenue is entirely attributed to license sales completed during the period, resulting in a higher correlation of lease license revenue growth to the growth rate of new lease license sales than that under ASC 605. To the extent the rate of customer renewal for lease and maintenance contracts is high, incremental lease contracts, and maintenance contracts sold with new perpetual licenses, will result in lease license and maintenance growth in constant currency. Conversely, if the rate of renewal for these contracts is adversely affected by economic or other factors, the Company's lease license and maintenance growth will be adversely affected.

The Company has been experiencing an increased interest by some of its larger customers in enterprise agreements that often include longer-term, time-based licenses involving a larger number of the Company's software products. While these arrangements typically involve a higher overall transaction price, the revenue from these contracts is typically deferred and recognized over the period of the contract under ASC 605, resulting in increased deferred revenue and backlog. To the extent these types of contracts replace sales of perpetual licenses, there could be a near-term adverse impact on software license and maintenance revenue growth. Under ASC 606, the upfront recognition of license revenue related to these larger, multi-year transactions can result in significantly higher lease license revenue volatility. As software products, across a large variety of applications and industries, become increasingly distributed in Software-as-a-Service, cloud and other subscription environments in which the licensing approach is time-based rather than perpetual, the Company is also experiencing a shifting preference from perpetual licenses to time-based licenses across a broader spectrum of its customers, particularly in the more mature geographic markets, such as the U.S. and Japan. To the extent this shift continues or becomes more prevalent, the result could be a similar and incremental near-term adverse impact on software license and maintenance revenue growth under ASC 605, as well as an adverse impact on maintenance revenue growth and increased lease license volatility under ASC 606.

As a percentage of revenue, the Company's international and domestic revenues, and the Company's direct and indirect revenues, are as follows:

	Three Months Ended June 30,		
	2018 (ASC 606)	**2018 (ASC 605)**	**2017 (ASC 605)**
International	**59.9%**	60.5%	62.0%
Domestic	**40.1%**	39.5%	38.0%
Direct revenue	**76.3%**	76.1%	75.7%
Indirect revenue	**23.7%**	23.9%	24.3%

In valuing deferred revenue on the balance sheets of the Company's recent acquisitions as of their respective acquisition dates, the Company applied the fair value provisions applicable to the accounting for business combinations, resulting in a reduction

of deferred revenue as compared to its historical carrying amount. As a result, the Company's post-acquisition revenue will be less than the sum of what would have otherwise been reported by ANSYS and each acquiree absent the acquisitions. Under ASC 606, the impact on reported revenue was $2.9 million for the quarter ended June 30, 2018. The expected impacts on reported revenue are $3.6 million and $9.5 million for the quarter ending September 30, 2018 and for the year ending December 31, 2018, respectively. Under ASC 605, the impact on revenue was $4.9 million and $0.4 million for the quarters ended June 30, 2018 and 2017, respectively. The expected impacts on revenue are $6.0 million and $15.6 million for the quarter ending September 30, 2018 and for the year ending December 31, 2018, respectively.

Deferred Revenue and Backlog:

Deferred revenue consists of billings made or payments received in advance of revenue recognition from software license and maintenance agreements. The deferred revenue on the Company's condensed consolidated balance sheets does not represent the total value of annual or multi-year noncancellable software license and maintenance agreements. The Company's backlog represents installment billings for periods beyond the current quarterly billing cycle and customer orders received but not processed. The Company's deferred revenue and backlog as of June 30, 2018 and December 31, 2017 consist of the following:

ASC 606

	Balance at June 30, 2018		
(in thousands)	**Total**	**Current**	**Long-Term**
Deferred revenue	**$ 323,537**	**$ 306,879**	**$ 16,658**
Backlog	**263,365**	**126,187**	**137,178**
Total	**$ 586,902**	**$ 433,066**	**$ 153,836**

ASC 605

	Balance at June 30, 2018		
(in thousands)	**Total**	**Current**	**Long-Term**
Deferred revenue	$ 490,037	$ 462,575	$ 27,462
Backlog	326,087	127,749	198,338
Total	$ 816,124	$ 590,324	$ 225,800

ASC 605

	Balance at December 31, 2017		
(in thousands)	**Total**	**Current**	**Long-Term**
Deferred revenue	$ 468,560	$ 440,491	$ 28,069
Backlog	301,150	97,283	203,867
Total	$ 769,710	$ 537,774	$ 231,936

Revenue associated with deferred revenue and backlog that will be recognized in the subsequent twelve months is classified as current in the tables above.

Cost of Sales and Gross Profit:

The table below reflects the Company's operating results as presented on the condensed consolidated statements of income, which are inclusive of foreign currency translation impacts. The adoption of ASC 606 resulted in a reclassification of expenses within cost of sales from software licenses to maintenance and service. Amounts included in the discussion that follows are provided in constant currency and do not include the impact of the OPTIS acquisition. The impact of the OPTIS acquisition on each expense line is provided separately, where material. The impact, where material, of foreign exchange translation on each expense line is also provided separately and is inclusive of the OPTIS acquisition.

	Three Months Ended June 30,				Change	
	2018		2017			
(in thousands, except percentages)	Amount	% of Revenue	Amount	% of Revenue	Amount	%
Cost of sales:						
Software licenses	**$ 4,099**	**1.3**	$ 7,525	2.9	$ (3,426)	(45.5)
Amortization	**9,087**	**3.0**	8,952	3.4	135	1.5
Maintenance and service	**27,264**	**8.9**	19,861	7.5	7,403	37.3
Total cost of sales	**40,450**	**13.2**	36,338	13.8	4,112	11.3
Gross profit	**$ 265,463**	**86.8**	$ 227,586	86.2	$ 37,877	16.6

Software Licenses: The decrease in the cost of software licenses was primarily due to the following:

- Reclassification of $4.3 million of cost of sales previously reflected within software licenses to maintenance and service due to the adoption of ASC 606 in 2018.

Maintenance and Service: The increase in maintenance and service costs was primarily due to the following:

- Reclassification of $4.3 million of cost of sales previously reflected within software licenses to maintenance and service due to the adoption of ASC 606 in 2018.
- Increased third-party technical support of $1.4 million.
- Increased salaries of $0.8 million.

The improvement in gross profit was a result of the increase in revenue, partially offset by the increase in the related cost of sales.

Operating Expenses:

The table below reflects the Company's operating results as presented on the condensed consolidated statements of income, which are inclusive of foreign currency translation impacts. The adoption of ASC 606 did not impact operating expenses. Amounts included in the discussion that follows are provided in constant currency and do not include the impact of the OPTIS acquisition. The impact of the OPTIS acquisition on each expense line is provided separately, where material. The impact, where material, of foreign exchange translation on each expense line is also provided separately and is inclusive of the OPTIS acquisition.

	Three Months Ended June 30,				Change	
	2018		2017			
(in thousands, except percentages)	Amount	% of Revenue	Amount	% of Revenue	Amount	%
Operating expenses:						
Selling, general and administrative	**$ 95,058**	**31.1**	$ 77,051	29.2	$ 18,007	23.4
Research and development	**58,357**	**19.1**	49,002	18.6	9,355	19.1
Amortization	**3,495**	**1.1**	3,139	1.2	356	11.3
Total operating expenses	**$ 156,910**	**51.3**	$ 129,192	49.0	$ 27,718	21.5

Selling, General and Administrative: The net increase in selling, general and administrative costs was primarily due to the following:

- Increased salaries, incentive compensation and other headcount-related costs of $7.4 million.
- OPTIS-related selling, general and administrative expenses of $3.5 million for the period from the acquisition date (May 2, 2018) through June 30, 2018.
- Increased stock-based compensation of $3.0 million.
- Cost increase related to foreign exchange translation of $1.9 million due to a weaker U.S. Dollar.
- Increased business travel of $1.1 million.
- Decreased consulting costs of $2.0 million.

The Company anticipates that it will continue to make targeted investments in its global sales and marketing organization and its global business infrastructure to enhance and support its revenue-generating activities.

Research and Development: The increase in research and development costs was primarily due to the following:

- Increased stock-based compensation of $3.2 million.
- Increased salaries of $2.9 million.
- OPTIS-related research and development expenses of $1.4 million for the period from the acquisition date (May 2, 2018) through June 30, 2018.
- Cost reduction of $1.1 million in 2017 for the removal of a reserve for a French research and development tax credit, which did not reoccur in 2018.

The Company has traditionally invested significant resources in research and development activities and intends to continue to make investments in expanding the ease of use and capabilities of its broad portfolio of simulation software products.

Interest Income: Interest income for the quarter ended June 30, 2018 was $2.2 million as compared to $1.7 million for the quarter ended June 30, 2017. Interest income increased as a result of an increase in the average rate of return on invested cash balances.

Other Expense, net: The Company's other expense consists of the following:

	Three Months Ended	
(in thousands)	**June 30, 2018**	**June 30, 2017**
Foreign currency losses, net	**$ (1,059)**	$ (165)
Other	**52**	(25)
Total other expense, net	**$ (1,007)**	$ (190)

Income Tax Provision: The Company's income before income tax provision, income tax provision and effective tax rate were as follows:

	Three Months Ended June 30,		
(in thousands, except percentages)	**2018 (ASC 606)**	**2018 (ASC 605)**	**2017 (ASC 605)**
Income before income tax provision	**$ 109,722**	$ 97,835	$ 99,872
Income tax provision	**$ 17,126**	$ 15,423	$ 30,142
Effective tax rate	**15.6%**	15.8%	30.2%

On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (Tax Reform), making broad and complex changes to the U.S. tax code. The SEC staff issued Staff Accounting Bulletin (SAB) 118, which provides guidance on accounting for the tax effects of Tax Reform and allows for provisional adjustments recorded in the December 31, 2017 financial statements to be adjusted as calculations are completed during the measurement period. SAB 118 provides a measurement period that should not extend beyond one year from enactment for companies to complete the accounting under ASC 740, *Income Taxes*. As further discussed below, in accordance with SAB 118, the Company was able to complete final or provisional calculations for certain elements of Tax Reform, and the amounts and estimates are included in the financial statements and have been updated as additional information was gathered. For other

elements, the Company was not yet able to make reasonable estimates, and therefore, those elements have not been recorded and are accounted for in accordance with ASC 740 on the basis of the tax laws in effect before Tax Reform.

The Company's accounting for the transition tax is incomplete. However, reasonable estimates of certain effects could be calculated, and a provisional adjustment of $16.0 million was recorded in the December 31, 2017 financial statements. To determine the amount of the transition tax, the Company must determine, in addition to other factors, the amount of post-1986 earnings and profits (E&P) of the relevant subsidiaries, as well as the amount of non-U.S. income taxes paid on such earnings. Based on revised E&P calculations updated during the measurement period, the Company recognized an additional measurement-period adjustment of $1.4 million to the transition tax obligation, with a corresponding adjustment of $1.4 million to tax expense, during the quarter ended March 31, 2018. A total transition tax obligation of $17.4 million has been recorded. Since the Company plans to elect to pay this liability over 8 years, $14.3 million of the obligation is recorded in other long-term liabilities, with the balance recorded to accrued income taxes. The Company will continue to gather additional information to more precisely compute the final amount as further adjustments to E&P are determined. The Company expects to complete the accounting within the prescribed measurement period.

The Company's accounting for the indefinite reinvestment assertion is incomplete. However, a reasonable estimate of book and tax basis was calculated, and the Company made a provisional assertion. In general, it is the practice and intention of the Company to repatriate previously taxed earnings and to reinvest all other earnings of its non-U.S. subsidiaries. As part of Tax Reform, the Company incurred U.S. tax on substantially all of the earnings of its non-U.S. subsidiaries as part of the transition tax. This tax increased the Company's previously taxed earnings and allows for the repatriation of the majority of its foreign earnings without any residual U.S. federal tax. The Company does not believe that there is an excess of the financial reporting basis over the tax basis of investments in foreign subsidiaries. Accordingly, any repatriation in excess of previously taxed earnings will be a non-taxable return of basis. This assertion is subject to change as additional information is gathered to precisely compute the book and tax basis of the Company's non-U.S. subsidiaries. During the quarter ended June 30, 2018, the Company repatriated $144.3 million of foreign cash. The Company has not made any measurement-period adjustments related to its indefinite reinvestment assertion during the six months ended June 30, 2018. However, the Company will continue to gather additional information and expects to complete the accounting within the measurement period.

The Company's accounting for the global intangible low-taxed income tax (GILTI) is incomplete. Due to the complexity of the new GILTI tax rules, the Company is continuing to evaluate this provision of Tax Reform and its application under ASC 740. Under U.S. GAAP, the Company is allowed to make an accounting policy choice of either (1) treating taxes due on future U.S. inclusions in taxable income related to GILTI as a current-period expense when incurred (the period cost method) or (2) factoring such amounts into the Company's measurement of its deferred taxes (the deferred method). The Company's selection of an accounting policy with respect to the new GILTI tax rules will depend, in part, on analyzing global income to determine whether future U.S. inclusions in taxable income related to GILTI are expected and, if so, the anticipated impact. Whether the Company expects to have future U.S. inclusions in taxable income related to GILTI depends not only on the current structure and estimated future results of global operations, but also on the Company's intent and ability to modify the structure and/or the business. The Company has not made the accounting policy decision regarding whether to record deferred taxes on GILTI or expense taxes as incurred on GILTI. The current GILTI impact, which was immaterial for the three and six months ended June 30, 2018, was recorded in the financial statements. The Company expects to complete the accounting for GILTI within the prescribed measurement period.

The decrease in the effective tax rate from the prior year is primarily due to the reduction in the U.S. federal corporate tax rate from 35 percent to 21 percent enacted as part of Tax Reform. The effective tax rate was also reduced by the foreign-derived intangible income deduction and increased stock-based compensation benefits, partially offset by the loss of the domestic manufacturing deduction, which was repealed as part of Tax Reform.

When compared to the federal and state combined statutory rate for each respective period, the effective tax rates for the quarters ended June 30, 2018 and 2017 were favorably impacted by tax benefits from stock-based compensation and research and development credits.

Net Income: The Company's net income, diluted earnings per share and weighted average shares used in computing diluted earnings per share were as follows:

	Three Months Ended June 30,		
(in thousands, except per share data)	**2018 (ASC 606)**	**2018 (ASC 605)**	**2017 (ASC 605)**
Net income	**$ 92,596**	$ 82,412	$ 69,730
Diluted earnings per share	**$ 1.08**	$ 0.96	$ 0.80
Weighted average shares outstanding - diluted	**85,986**	85,986	86,895

Table of Contents

Six Months Ended June 30, 2018 Compared to Six Months Ended June 30, 2017

Revenue:

(in thousands, except percentages)	Six Months Ended June 30, 2018 (ASC 606)	Six Months Ended June 30, 2017 (ASC 605)	Change Amount	Change %	Change Constant Currency %
Revenue:					
Lease licenses	**$ 105,593**	$ 185,899	$ (80,306)	(43.2)	(45.4)
Perpetual licenses	**135,600**	105,889	29,711	28.1	23.4
Software licenses	**241,193**	291,788	(50,595)	(17.3)	(20.4)
Maintenance	**329,499**	212,038	117,461	55.4	49.4
Service	**18,094**	13,503	4,591	34.0	29.9
Maintenance and service	**347,593**	225,541	122,052	54.1	48.3
Total revenue	**$ 588,786**	$ 517,329	$ 71,457	13.8	9.5

The adoption of ASC 606 significantly impacted the timing, allocation and presentation of lease license, perpetual license and maintenance revenue. For further information on the impact of this adoption on the Company's results, see Note 3 to the condensed consolidated financial statements included in Item 1 of this Quarterly Report on Form 10-Q.

For purposes of comparability, the changes in the following table and discussion are presented in accordance with ASC 605.

(in thousands, except percentages)	Six Months Ended June 30, 2018 (ASC 605)	Six Months Ended June 30, 2017 (ASC 605)	Change Amount	Change %	Change Constant Currency %
Revenue:					
Lease licenses	$ 202,238	$ 185,899	$ 16,339	8.8	5.8
Perpetual licenses	113,812	105,889	7,923	7.5	3.5
Software licenses	316,050	291,788	24,262	8.3	4.9
Maintenance	244,411	212,038	32,373	15.3	10.3
Service	18,134	13,503	4,631	34.3	30.3
Maintenance and service	262,545	225,541	37,004	16.4	11.5
Total revenue	$ 578,595	$ 517,329	$ 61,266	11.8	7.8

The Company’s ASC 605 revenue in the six months ended June 30, 2018 increased 11.8% as compared to the six months ended June 30, 2017, while revenue grew 7.8% in constant currency. The growth rate was favorably impacted by the Company’s continued investment in its global sales, support and marketing organizations. Perpetual license revenue, which is derived primarily from new sales during the year, increased 7.5%, or 3.5% in constant currency, as compared to the six months ended June 30, 2017. Lease license revenue increased 8.8%, or 5.8% in constant currency, as compared to the six months ended June 30, 2017. Annual maintenance contracts that were sold with new perpetual licenses, along with maintenance contracts for new perpetual licenses sold in previous quarters, contributed to maintenance revenue growth of 15.3%, or 10.3% in constant currency. Service revenue, driven primarily by a focus on service offerings that provide on-site mentorship on simulation best practices, training and expanding simulation adoption, increased 34.3%, or 30.3% in constant currency, as compared to the six months ended June 30, 2017.

With respect to revenue, on average for the six months ended June 30, 2018, the U.S. Dollar was approximately 7.6% weaker and 7.8% weaker, when measured against the Company’s primary foreign currencies, than for the six months ended June 30, 2017 under ASC 606 and ASC 605, respectively. The table below presents the impacts of currency fluctuations on revenue for the six months ended June 30, 2018.

	Six Months Ended June 30, 2018	
(in thousands)	ASC 606	ASC 605
Euro	**$ 17,017**	$ 15,538
Japanese Yen	**2,197**	2,194
South Korean Won	**1,390**	1,340
British Pound	**1,322**	1,448
Other	**333**	416
Total	**$ 22,259**	$ 20,936

The weaker U.S. Dollar also resulted in increased operating income of $12.4 million and $11.6 million for the six months ended June 30, 2018 as compared to the six months ended June 30, 2017 under ASC 606 and ASC 605, respectively.

As a percentage of revenue, the Company's international and domestic revenues, and the Company's direct and indirect revenues, are as follows:

	Six Months Ended June 30,		
	2018 (ASC 606)	2018 (ASC 605)	2017 (ASC 605)
International	**62.4%**	61.2%	61.3%
Domestic	**37.6%**	38.8%	38.7%
Direct revenue	**76.4%**	76.6%	75.6%
Indirect revenue	**23.6%**	23.4%	24.4%

In valuing deferred revenue on the balance sheets of the Company's recent acquisitions as of their respective acquisition dates, the Company applied the fair value provisions applicable to the accounting for business combinations, resulting in a reduction of deferred revenue as compared to its historical carrying amount. As a result, the Company's post-acquisition revenue will be less than the sum of what would have otherwise been reported by ANSYS and each acquiree absent the acquisitions. Under ASC 606, the impact on reported revenue was $3.3 million for the six months ended June 30, 2018. Under ASC 605, the impact on revenue was $5.5 million and $0.6 million for the six months ended June 30, 2018 and 2017, respectively.

Cost of Sales and Gross Profit:

The table below reflects the Company's operating results as presented on the condensed consolidated statements of income, which are inclusive of foreign currency translation impacts. The adoption of ASC 606 resulted in a reclassification of expenses within cost of sales from software licenses to maintenance and service. Amounts included in the discussion that follows are provided in constant currency and do not include the impact of the OPTIS acquisition. The impact of the OPTIS acquisition on each expense line is provided separately, where material. The impact, where material, of foreign exchange translation on each expense line is also provided separately and is inclusive of the OPTIS acquisition.

	Six Months Ended June 30,					
	2018		2017		Change	
(in thousands, except percentages)	Amount	% of Revenue	Amount	% of Revenue	Amount	%
Cost of sales:						
Software licenses	**$ 8,010**	**1.4**	$ 16,802	3.2	$ (8,792)	(52.3)
Amortization	**17,873**	**3.0**	17,888	3.5	(15)	(0.1)
Maintenance and service	**53,605**	**9.1**	38,679	7.5	14,926	38.6
Total cost of sales	**79,488**	**13.5**	73,369	14.2	6,119	8.3
Gross profit	**$ 509,298**	**86.5**	$ 443,960	85.8	$ 65,338	14.7

Software Licenses: The decrease in the cost of software licenses was primarily due to the following:

- Reclassification of $8.6 million of cost of sales previously reflected within software licenses to maintenance and service due to the adoption of ASC 606 in 2018.

Maintenance and Service: The net increase in maintenance and service costs was primarily due to the following:

- Reclassification of $8.6 million of cost of sales previously reflected within software licenses to maintenance and service due to the adoption of ASC 606 in 2018.
- Increased salaries and other headcount-related costs of $2.4 million.
- Increased third-party technical support of $2.3 million.
- Cost increase related to foreign exchange translation of $1.4 million due to a weaker U.S. Dollar.
- Restructuring costs of $1.4 million related to 2017 workforce realignment activities that did not reoccur in 2018.

The improvement in gross profit was a result of the increase in revenue, partially offset by the increase in the related cost of sales.

Operating Expenses:

The table below reflects the Company's operating results as presented on the condensed consolidated statements of income, which are inclusive of foreign currency translation impacts. The adoption of ASC 606 did not impact operating expenses. Amounts included in the discussion that follows are provided in constant currency and do not include the impact of the OPTIS acquisition. The impact of the OPTIS acquisition on each expense line is provided separately, where material. The impact, where material, of foreign exchange translation on each expense line is also provided separately and is inclusive of the OPTIS acquisition.

	Six Months Ended June 30,					
	2018		2017		Change	
(in thousands, except percentages)	Amount	% of Revenue	Amount	% of Revenue	Amount	%
Operating expenses:						
Selling, general and administrative	**$ 182,867**	**31.1**	$ 150,468	29.1	$ 32,399	21.5
Research and development	**115,887**	**19.7**	103,380	20.0	12,507	12.1
Amortization	**6,930**	**1.2**	6,246	1.2	684	11.0
Total operating expenses	**$ 305,684**	**51.9**	$ 260,094	50.3	$ 45,590	17.5

Selling, General and Administrative: The net increase in selling, general and administrative costs was primarily due to the following:

- Increased salaries, incentive compensation and other headcount-related costs of $14.1 million.
- Increased stock-based compensation of $5.2 million.
- Cost increase related to foreign exchange translation of $4.2 million due to a weaker U.S. Dollar.
- OPTIS-related selling, general and administrative expenses of $3.5 million for the period from the acquisition date (May 2, 2018) through June 30, 2018.
- Increased third-party commissions of $2.3 million.
- Increased IT maintenance and software hosting costs of $2.1 million.
- Increased business travel of $1.9 million.
- Decreased consulting and professional fees of $2.7 million.
- Restructuring costs of $2.6 million related to 2017 workforce realignment activities that did not reoccur in 2018.

Research and Development: The net increase in research and development costs was primarily due to the following:

- Increased salaries, incentive compensation and other headcount-related costs of $8.1 million.
- Increased stock-based compensation of $5.3 million.

- Cost increase related to foreign exchange translation of $1.7 million due to a weaker U.S. Dollar.
- OPTIS-related research and development expenses of $1.4 million for the period from the acquisition date (May 2, 2018) through June 30, 2018.
- Increased IT maintenance and software hosting costs of $1.4 million.
- Restructuring costs of $6.7 million related to 2017 workforce realignment activities that did not reoccur in 2018.

Interest Income: Interest income for the six months ended June 30, 2018 was $4.5 million as compared to $2.9 million for the six months ended June 30, 2017. Interest income increased as a result of an increase in the average rate of return on invested cash balances.

Other Expense, net: The Company's other expense consists of the following:

	Six Months Ended	
(in thousands)	June 30, 2018	June 30, 2017
Foreign currency losses, net	**$ (1,323)**	$ (1,290)
Other	**8**	(54)
Total other expense, net	**$ (1,315)**	$ (1,344)

Income Tax Provision: The Company's income before income tax provision, income tax provision and effective tax rate were as follows:

	Six Months Ended June 30,		
(in thousands, except percentages)	2018 (ASC 606)	2018 (ASC 605)	2017 (ASC 605)
Income before income tax provision	**$ 206,760**	$ 196,569	$ 185,439
Income tax provision	**$ 29,884**	$ 28,404	$ 52,403
Effective tax rate	**14.5%**	14.4%	28.3%

The decrease in the effective tax rate from the prior year is primarily due to the reduction in the U.S. federal corporate tax rate from 35 percent to 21 percent enacted as part of Tax Reform. The effective tax rate was also reduced by the foreign-derived intangible income deduction, partially offset by incremental charges related to the transition tax recorded in 2018 and the loss of the domestic manufacturing deduction, which was repealed as part of Tax Reform.

When compared to the federal and state combined statutory rate for each respective period, the effective tax rates for the six months ended June 30, 2018 and 2017 were favorably impacted by tax benefits from stock-based compensation and research and development credits.

Net Income: The Company's net income, diluted earnings per share and weighted average shares used in computing diluted earnings per share were as follows:

	Six Months Ended June 30,		
(in thousands, except per share data)	2018 (ASC 606)	2018 (ASC 605)	2017 (ASC 605)
Net income	**$ 176,876**	$ 168,165	$ 133,036
Diluted earnings per share	**$ 2.06**	$ 1.95	$ 1.53
Weighted average shares outstanding - diluted	**86,069**	86,069	87,060

Non-GAAP Results

The Company provides non-GAAP revenue, non-GAAP operating income, non-GAAP operating profit margin, non-GAAP net income and non-GAAP diluted earnings per share as supplemental measures to GAAP regarding the Company's operational performance. These financial measures exclude the impact of certain items and, therefore, have not been calculated in accordance with GAAP. A detailed explanation and a reconciliation of each non-GAAP financial measure to its most comparable GAAP financial measure are described below.

	ASC 606		
	Three Months Ended		
	June 30, 2018		
(in thousands, except percentages and per share data)	GAAP Results	Adjustments	Non-GAAP Results
Total revenue	$ 305,913	$ 2,948 (1)	$ 308,861
Operating income	108,553	37,556 (2)	146,109
Operating profit margin	35.5%		47.3%
Net income	$ 92,596	$ 23,250 (3)	$ 115,846
Earnings per share – diluted:			
Earnings per share	$ 1.08		$ 1.35
Weighted average shares	85,986		85,986

(1) Amount represents the revenue not reported during the period as a result of the acquisition accounting adjustment associated with the accounting for deferred revenue in business combinations.

(2) Amount represents $20.6 million of stock-based compensation expense, $0.4 million of excess payroll taxes related to stock-based awards, $12.6 million of amortization expense associated with intangible assets acquired in business combinations, $1.0 million of transaction expenses related to business combinations and the $2.9 million adjustment to revenue as reflected in (1) above.

(3) Amount represents the impact of the adjustments to operating income referred to in (2) above, decreased for the related income tax impact of $14.2 million and rabbi trust income of $0.1 million.

	ASC 606		
	Six Months Ended		
	June 30, 2018		
(in thousands, except percentages and per share data)	GAAP Results	Adjustments	Non-GAAP Results
Total revenue	$ 588,786	$ 3,349 (1)	$ 592,135
Operating income	203,614	69,907 (2)	273,521
Operating profit margin	34.6%		46.2%
Net income	$ 176,876	$ 42,034 (3)	$ 218,910
Earnings per share – diluted:			
Earnings per share	$ 2.06		$ 2.54
Weighted average shares	86,069		86,069

(1) Amount represents the revenue not reported during the period as a result of the acquisition accounting adjustment associated with the accounting for deferred revenue in business combinations.

(2) Amount represents $35.9 million of stock-based compensation expense, $3.5 million of excess payroll taxes related to stock-based awards, $24.8 million of amortization expense associated with intangible assets acquired in business combinations, $2.3 million of transaction expenses related to business combinations and the $3.3 million adjustment to revenue as reflected in (1) above.

(3) Amount represents the impact of the adjustments to operating income referred to in (2) above, decreased for the related income tax impact of $29.3 million and rabbi trust income of $0.1 million, and increased for a measurement-period adjustment related to the Tax Cuts and Jobs Act of $1.4 million.

(in thousands, except percentages and per share data)	ASC 605 Three Months Ended June 30, 2018 GAAP Results	Adjustments		Non-GAAP Results	June 30, 2017 GAAP Results	Adjustments		Non-GAAP Results

(3) Amount represents the impact of the adjustments to operating income referred to in (2) above, decreased for the related income tax impact of $29.9 million and rabbi trust income of $0.1 million, and increased for a measurement-period adjustment related to the Tax Cuts and Jobs Act of $1.4 million.

(4) Amount represents the revenue not reported during the period as a result of the acquisition accounting adjustment associated with the accounting for deferred revenue in business combinations.

(5) Amount represents $24.6 million of stock-based compensation expense, $24.1 million of amortization expense associated with intangible assets acquired in business combinations, $11.3 million of restructuring charges, $0.7 million of transaction expenses related to business combinations and the $0.6 million adjustment to revenue as reflected in (4) above.

(6) Amount represents the impact of the adjustments to operating income referred to in (5) above, adjusted for the related income tax impact of $30.4 million.

Non-GAAP Measures

Management uses non-GAAP financial measures (a) to evaluate the Company's historical and prospective financial performance as well as its performance relative to its competitors, (b) to set internal sales targets and spending budgets, (c) to allocate resources, (d) to measure operational profitability and the accuracy of forecasting, (e) to assess financial discipline over operational expenditures and (f) as an important factor in determining variable compensation for management and its employees. In addition, many financial analysts that follow the Company focus on and publish both historical results and future projections based on non-GAAP financial measures. The Company believes that it is in the best interest of its investors to provide this information to analysts so that they accurately report the non-GAAP financial information. Moreover, investors have historically requested, and the Company has historically reported, these non-GAAP financial measures as a means of providing consistent and comparable information with past reports of financial results.

While management believes that these non-GAAP financial measures provide useful supplemental information to investors, there are limitations associated with the use of these non-GAAP financial measures. These non-GAAP financial measures are not prepared in accordance with GAAP, are not reported by all of the Company's competitors and may not be directly comparable to similarly titled measures of the Company's competitors due to potential differences in the exact method of calculation. The Company compensates for these limitations by using these non-GAAP financial measures as supplements to GAAP financial measures and by reviewing the reconciliations of the non-GAAP financial measures to their most comparable GAAP financial measures.

The adjustments to these non-GAAP financial measures, and the basis for such adjustments, are outlined below:

Acquisition accounting for deferred revenue and its related tax impact. Historically, the Company has consummated acquisitions in order to support its strategic and other business objectives. In accordance with the fair value provisions applicable to the accounting for business combinations, acquired deferred revenue is often recorded on the opening balance sheet at an amount that is lower than the historical carrying value. Although this acquisition accounting requirement has no impact on the Company's business or cash flow, it adversely impacts the Company's reported GAAP revenue in the reporting periods following an acquisition. In order to provide investors with financial information that facilitates comparison of both historical and future results, the Company provides non-GAAP financial measures which exclude the impact of the acquisition accounting adjustment. The Company believes that this non-GAAP financial adjustment is useful to investors because it allows investors to (a) evaluate the effectiveness of the methodology and information used by management in its financial and operational decision-making, and (b) compare past and future reports of financial results of the Company as the revenue reduction related to acquired deferred revenue will not recur when related annual lease licenses and software maintenance contracts are renewed in future periods.

Amortization of intangible assets from acquisitions and its related tax impact. The Company incurs amortization of intangible assets, included in its GAAP presentation of amortization expense, related to various acquisitions it has made. Management excludes these expenses and their related tax impact for the purpose of calculating non-GAAP operating income, non-GAAP operating profit margin, non-GAAP net income and non-GAAP diluted earnings per share when it evaluates the continuing operational performance of the Company because these costs are fixed at the time of an acquisition, are then amortized over a period of several years after the acquisition and generally cannot be changed or influenced by management after the acquisition. Accordingly, management does not consider these expenses for purposes of evaluating the performance of the Company during the applicable time period after the acquisition, and it excludes such expenses when making decisions to allocate resources. The Company believes that these non-GAAP financial measures are useful to investors because they allow investors to (a) evaluate the effectiveness of the methodology and information used by management in its financial and operational decision-making, and (b) compare past reports of financial results of the Company as the Company has historically reported these non-GAAP financial measures.

Stock-based compensation expense and its related tax impact. The Company incurs expense related to stock-based compensation included in its GAAP presentation of cost of software licenses; cost of maintenance and service; research and development expense; and selling, general and administrative expense. This non-GAAP adjustment also includes excess payroll tax expense related to stock-based compensation. Stock-based compensation expense (benefit) incurred in connection with the Company's deferred compensation plan held in a rabbi trust includes an offsetting benefit (charge) recorded in other income (expense). Although stock-based compensation is an expense of the Company and viewed as a form of compensation, management excludes these expenses for the purpose of calculating non-GAAP operating income, non-GAAP operating profit margin, non-GAAP net income and non-GAAP diluted earnings per share when it evaluates the continuing operational performance of the Company. Management similarly excludes income (expense) related to assets held in a rabbi trust in connection with the Company's deferred compensation plan. Specifically, the Company excludes stock-based compensation and income (expense) related to assets held in the deferred compensation plan rabbi trust during its annual budgeting process and its quarterly and annual assessments of the Company's and management's performance. The annual budgeting process is the primary mechanism whereby the Company allocates resources to various initiatives and operational requirements. Additionally, the annual review by the board of directors during which it compares the Company's historical business model and profitability to the planned business model and profitability for the forthcoming year excludes the impact of stock-based compensation. In evaluating the performance of senior management and department managers, charges related to stock-based compensation are excluded from expenditure and profitability results. In fact, the Company records stock-based compensation expense into a stand-alone cost center for which no single operational manager is responsible or accountable. In this way, management is able to review, on a period-to-period basis, each manager's performance and assess financial discipline over operational expenditures without the effect of stock-based compensation. The Company believes that these non-GAAP financial measures are useful to investors because they allow investors to (a) evaluate the Company's operating results and the effectiveness of the methodology used by management to review the Company's operating results, and (b) review historical comparability in the Company's financial reporting as well as comparability with competitors' operating results.

Restructuring charges and the related tax impact. The Company occasionally incurs expenses for restructuring its workforce included in its GAAP presentation of cost of software licenses; cost of maintenance and service; research and development expense; and selling, general and administrative expense. Management excludes these expenses for the purpose of calculating non-GAAP operating income, non-GAAP operating profit margin, non-GAAP net income and non-GAAP diluted earnings per share when it evaluates the continuing operational performance of the Company, as it generally does not incur these expenses as a part of its operations. The Company believes that these non-GAAP financial measures are useful to investors because they allow investors to (a) evaluate the Company's operating results and the effectiveness of the methodology used by management to review the Company's operating results, and (b) review historical comparability in the Company's financial reporting as well as comparability with competitors' operating results.

Transaction costs related to business combinations. The Company incurs expenses for professional services rendered in connection with business combinations, which are included in its GAAP presentation of selling, general and administrative expense. These expenses are generally not tax-deductible. Management excludes these acquisition-related transaction expenses, derived from announced acquisitions, for the purpose of calculating non-GAAP operating income, non-GAAP operating profit margin, non-GAAP net income and non-GAAP diluted earnings per share when it evaluates the continuing operational performance of the Company, as it generally would not have otherwise incurred these expenses in the periods presented as a part of its operations. The Company believes that these non-GAAP financial measures are useful to investors because they allow investors to (a) evaluate the Company's operating results and the effectiveness of the methodology used by management to review the Company's operating results, and (b) review historical comparability in the Company's financial reporting as well as comparability with competitors' operating results.

Tax Cuts and Jobs Act. The Company recorded charges in its income tax provision related to the enactment of the Tax Cuts and Jobs Act, specifically for the transition tax related to unrepatriated cash. Management excludes these charges for the purpose of calculating non-GAAP net income and non-GAAP diluted earnings per share when it evaluates the continuing operational performance of the Company, as (i) the charges are not expected to recur as part of its normal operations and (ii) the charges resulted from the extremely infrequent event of major U.S. tax reform, the last such reform having occurred in 1986. The Company believes that these non-GAAP financial measures are useful to investors because they allow investors to (a) evaluate the Company's operating results and the effectiveness of the methodology used by management to review the Company's operating results, and (b) review historical comparability in the Company's financial reporting.

Non-GAAP financial measures are not in accordance with, or an alternative for, GAAP. The Company's non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP financial measures and should be read only in conjunction with the Company's consolidated financial statements prepared in accordance with GAAP.

The Company has provided a reconciliation of the non-GAAP financial measures to the most directly comparable GAAP financial measures as listed below:

GAAP Reporting Measure	**Non-GAAP Reporting Measure**
Revenue	Non-GAAP Revenue
Operating Income	Non-GAAP Operating Income
Operating Profit Margin	Non-GAAP Operating Profit Margin
Net Income	Non-GAAP Net Income
Diluted Earnings Per Share	Non-GAAP Diluted Earnings Per Share

Table of Contents

Liquidity and Capital Resources

(in thousands)		June 30, 2018		December 31, 2017		Change
Cash, cash equivalents and short-term investments	**$**	**696,163**	$	881,787	$	(185,624)
Working capital	**$**	**707,984**	$	661,713	$	46,271

Cash, cash equivalents and short-term investments decreased during the current fiscal year primarily due to cash utilized in the May 2, 2018 acquisition of OPTIS.

Cash, Cash Equivalents and Short-Term Investments

Cash and cash equivalents consist primarily of highly liquid investments such as money market funds and deposits held at major banks. Short-term investments consist primarily of deposits held by certain foreign subsidiaries of the Company with original maturities of three months to one year. The following table presents the Company's foreign and domestic holdings of cash, cash equivalents and short-term investments as of June 30, 2018 and December 31, 2017:

(in thousands, except percentages)		June 30, 2018	% of Total		December 31, 2017	% of Total
Domestic	**$**	**528,575**	**75.9**	$	561,417	63.7
Foreign		**167,588**	**24.1**		320,370	36.3
Total	**$**	**696,163**		$	881,787	

In general, it is the practice and intention of the Company to repatriate previously taxed earnings and to reinvest all other earnings of its non-U.S. subsidiaries. As part of the Tax Cuts and Jobs Act enacted in the United States in 2017, the Company incurred U.S. tax on substantially all of the earnings of its non-U.S. subsidiaries. This tax increased the Company’s previously taxed earnings and allows for the repatriation of the majority of its foreign earnings without any residual U.S. federal tax. During the quarter ended June 30, 2018, the Company repatriated $144.3 million of foreign cash, which increased the percentage of domestic cash, cash equivalents and short-term investments at June 30, 2018. The Company does not believe that there is an excess of the financial reporting basis over the tax basis of investments in foreign subsidiaries. Accordingly, any repatriation in excess of previously taxed earnings will be a non-taxable return of basis.

The amount of cash, cash equivalents and short-term investments held by foreign subsidiaries is subject to translation adjustments caused by changes in foreign currency exchange rates as of the end of each respective reporting period, the offset to which is recorded in accumulated other comprehensive loss on the Company's condensed consolidated balance sheet.

Cash Flows from Operating Activities

	Six Months Ended June 30,					
(in thousands)		2018		2017		Change
Net cash provided by operating activities	**$**	**243,542**	$	238,075	$	5,467

Net cash provided by operating activities increased during the current fiscal year due to increased net income (net of non-cash operating adjustments) of $39.6 million, partially offset by decreased net cash flows from operating assets and liabilities of $34.2 million.

Cash Flows from Investing Activities

	Six Months Ended June 30,					
(in thousands)		2018		2017		Change
Net cash used in investing activities	**$**	**(295,253)**	$	(25,250)	$	(270,003)

Net cash used in investing activities increased during the current fiscal year due to increased acquisition-related net cash outlays of $277.2 million, partially offset by decreased cash used in other investing activities of $6.4 million. The Company currently plans capital spending of $22 million to $27 million for the 2018 fiscal year as compared to the $19.1 million that was spent in 2017. The level of spending will depend on various factors, including the growth of the business and general economic conditions.

Cash Flows from Financing Activities

(in thousands)	Six Months Ended June 30, 2018	Six Months Ended June 30, 2017	Change
Net cash used in financing activities	**$ (121,209)**	$ (190,702)	$ 69,493

Net cash used in financing activities decreased during the current fiscal year due to decreased stock repurchases of $105.5 million, partially offset by increased restricted stock withholding taxes paid in lieu of issued shares of $16.0 million, decreased proceeds from shares issued for stock-based compensation of $15.0 million, and increased cash used in other financing activities of $4.9 million.

Other Cash Flow Information

The Company believes that existing cash and cash equivalent balances of $695.9 million, together with cash generated from operations, will be sufficient to meet the Company’s working capital and capital expenditure requirements through the next twelve months. The Company’s cash requirements in the future may also be financed through additional equity or debt financings. There can be no assurance that such financings can be obtained on favorable terms, if at all.

Under the Company's stock repurchase program, the Company repurchased shares during the six months ended June 30, 2018 and 2017, as follows:

(in thousands, except per share data)	Six Months Ended June 30, 2018	Six Months Ended June 30, 2017
Number of shares repurchased	**750**	2,000
Average price paid per share	**$ 157.11**	$ 111.65
Total cost	**$ 117,831**	$ 223,291

In February 2018, the Company's Board of Directors increased the number of shares authorized for repurchase to a total of 5.0 million shares under the stock repurchase program. As of June 30, 2018, 4.8 million shares remained available for repurchase under the program.

The Company's repurchase authorization does not have an expiration date and the pace of the repurchase activity will depend on factors such as working capital needs, cash requirements for acquisitions, the Company's stock price, and economic and market conditions. The Company's stock repurchases may be effected from time to time through open market purchases or pursuant to a Rule 10b5-1 plan.

The Company continues to generate positive cash flows from operating activities and believes that the best uses of its excess cash are to invest in the business and to repurchase stock in order to both offset dilution and return capital, in excess of its requirements, to stockholders with the goal of increasing stockholder value. Additionally, the Company has in the past, and expects in the future, to acquire or make investments in complementary companies, products, services and technologies. Any future acquisitions may be funded by available cash and investments, cash generated from operations, credit facilities or the issuance of additional securities.

Off-Balance-Sheet Arrangements

The Company does not have any special-purpose entities or off-balance-sheet financing.

Contractual Obligations

There were no material changes to the Company’s significant contractual obligations during the six months ended June 30, 2018 as compared to those previously reported in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” within the Company’s most recent Annual Report on Form 10-K.

Critical Accounting Policies and Estimates

During the first quarter of 2018, the Company completed the annual impairment test for goodwill and the indefinite-lived intangible asset and determined that these assets had not been impaired as of the test date, January 1, 2018. No other events or circumstances changed during the six months ended June 30, 2018 that would indicate that the fair values of the Company's reporting unit and indefinite-lived intangible asset are below their carrying amounts.

The Company's critical accounting policies and estimates are described in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's most recent Annual Report on Form 10-K. The Company has updated its revenue recognition policies in conjunction with the adoption of ASC 606 as further described in Note 3 to the accompanying condensed consolidated financial statements. No other significant changes have occurred to the Company's critical accounting policies and estimates.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Income Rate Risk. Changes in the overall level of interest rates affect the interest income that is generated from the Company's cash, cash equivalents and short-term investments. For the three and six months ended June 30, 2018, total interest income was $2.2 million and $4.5 million, respectively. Cash and cash equivalents consist primarily of highly liquid investments such as money market funds and deposits held at major banks. Short-term investments consist primarily of deposits held by certain foreign subsidiaries of the Company with original maturities of three months to one year.

Foreign Currency Transaction Risk. As the Company operates in international regions, a portion of its revenue, expenses, cash, accounts receivable and payment obligations are denominated in foreign currencies. As a result, changes in currency exchange rates will affect the Company's financial position, results of operations and cash flows. The Company is most impacted by movements in and among the Euro, Japanese Yen, South Korean Won, British Pound and U.S. Dollar.

With respect to revenue, on average for the quarter ended June 30, 2018, the U.S. Dollar was approximately 4.1% weaker and 4.8% weaker, when measured against the Company's primary foreign currencies, than for the quarter ended June 30, 2017 under ASC 606 and ASC 605, respectively. The table below presents the impacts of currency fluctuations on revenue for the quarter ended June 30, 2018. Amounts in brackets indicate a net adverse impact from currency fluctuations.

	Three Months Ended June 30, 2018	
(in thousands)	**ASC 606**	**ASC 605**
Euro	**$ 4,708**	$ 5,155
Japanese Yen	**709**	562
South Korean Won	**580**	567
British Pound	**439**	495
Other	**(182)**	(108)
Total	**$ 6,254**	$ 6,671

The net overall weaker U.S. Dollar also resulted in increased operating income of $2.9 million and $3.8 million for the quarter ended June 30, 2018 as compared to the quarter ended June 30, 2017 under ASC 606 and ASC 605, respectively.

With respect to revenue, on average for the six months ended June 30, 2018, the U.S. Dollar was approximately 7.6% weaker and 7.8% weaker, when measured against the Company's primary foreign currencies, than for the six months ended June 30, 2017 under ASC 606 and ASC 605, respectively. The table below presents the impacts of currency fluctuations on revenue for the six months ended June 30, 2018.

	Six Months Ended June 30, 2018	
(in thousands)	**ASC 606**	**ASC 605**
Euro	**$ 17,017**	$ 15,538
Japanese Yen	**2,197**	2,194
South Korean Won	**1,390**	1,340
British Pound	**1,322**	1,448
Other	**333**	416
Total	**$ 22,259**	$ 20,936

The weaker U.S. Dollar also resulted in increased operating income of $12.4 million and $11.6 million for the six months ended June 30, 2018 as compared to the six months ended June 30, 2017 under ASC 606 and ASC 605, respectively.

The most significant currency impacts on revenue and operating income are typically attributable to U.S. Dollar exchange rate changes against the British Pound, Euro, Japanese Yen and South Korean Won as reflected in the charts below:

	Period-End Exchange Rates			
As of	**GBP/USD**	**EUR/USD**	**USD/JPY**	**USD/KRW**
June 30, 2017	1.303	1.142	112.410	1,146.395
December 31, 2017	1.351	1.200	112.701	1,068.376
June 30, 2018	**1.321**	**1.168**	**110.705**	**1,116.196**

	Average Exchange Rates			
Three Months Ended	**GBP/USD**	**EUR/USD**	**USD/JPY**	**USD/KRW**
June 30, 2017	1.279	1.100	111.085	1,131.648
June 30, 2018	**1.360**	**1.192**	**109.154**	**1,081.354**

	Average Exchange Rates			
Six Months Ended	**GBP/USD**	**EUR/USD**	**USD/JPY**	**USD/KRW**
June 30, 2017	1.259	1.083	112.332	1,141.987
June 30, 2018	**1.376**	**1.210**	**108.713**	**1,077.412**

No other material change has occurred in the Company’s market risk subsequent to December 31, 2017.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. As required by Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934, as amended, or the Exchange Act, the Company has evaluated, with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, the effectiveness of the design and operation of its disclosure controls and procedures as of the end of the period covered by this report. Based on such evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that such disclosure controls and procedures are effective, as defined in Rule 13a-15(e) of the Exchange Act.

The Company has a Disclosure Review Committee to assist in the quarterly evaluation of the Company’s internal disclosure controls and procedures and in the review of the Company’s periodic filings under the Exchange Act. The membership of the Disclosure Review Committee consists of the Company’s President and Chief Executive Officer; Chief Financial Officer; Vice President of Finance; General Counsel; Senior Director, Global Investor Relations; Senior Vice President of Worldwide Sales and Customer Excellence; Vice President of Human Resources; Vice President, Corporate Marketing and Business Development; Vice President, Design and Platform Business Unit; and Vice President and General Manager of Electronics, Fluids and Mechanical. This committee is advised by external counsel, particularly on SEC-related matters. Additionally, other members of the Company’s global management team advise the committee with respect to disclosure via a sub-certification process.

The Company believes, based on its knowledge, that the financial statements and other financial information included in this report fairly present, in all material respects, the financial condition, results of operations and cash flows of the Company as of and for the periods presented in this report. The Company is committed to both a sound internal control environment and to good corporate governance.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate.

From time to time, the Company reviews the disclosure controls and procedures and may make changes to enhance their effectiveness and to ensure that the Company’s systems evolve with its business.

Changes in Internal Control. The Company is in the process of extending its internal controls to its acquisition of OPTIS. Otherwise, there were no changes in the Company’s internal control over financial reporting that occurred during the three months ended June 30, 2018 that materially affected, or were reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

The Company is subject to various investigations, claims and legal proceedings that arise in the ordinary course of business, including commercial disputes, labor and employment matters, tax audits, alleged infringement of intellectual property rights and other matters. In the opinion of the Company, the resolution of pending matters is not expected to have a material adverse effect on the Company's consolidated results of operations, cash flows or financial position. However, each of these matters is subject to various uncertainties and it is possible that an unfavorable resolution of one or more of these proceedings could materially affect the Company's results of operations, cash flows or financial position.

Item 1A. Risk Factors

The Company cautions investors that its performance (and, therefore, any forward-looking statement) is subject to risks and uncertainties. Various important factors may cause the Company’s future results to differ materially from those projected in any forward-looking statement. These factors were disclosed in, but are not limited to, the items within the Company’s most recent Annual Report on Form 10-K, Part I, Item 1A. No material changes have occurred regarding the Company's risk factors subsequent to December 31, 2017.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

EXHIBIT 15

August 7, 2018

ANSYS, Inc.
2600 ANSYS Drive
Canonsburg, PA 15317

We have reviewed, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the unaudited interim financial information of ANSYS, Inc. and subsidiaries for the periods ended June 30, 2018, and 2017, as indicated in our report dated August 7, 2018; because we did not perform an audit, we expressed no opinion on that information.

We are aware that our report referred to above, which is included in your Quarterly Report on Form 10-Q for the quarter ended June 30, 2018, is incorporated by reference in Registration Statement Nos. 333-08613, 333-69506, 333-110728, 333-137274, 333-152765, 333-174670, 333-177030, 333-196393, 333-206111, and 333-212412 on Form S-8.

We also are aware that the aforementioned report, pursuant to Rule 436(c) under the Securities Act of 1933, is not considered a part of the Registration Statement prepared or certified by an accountant or a report prepared or certified by an accountant within the meaning of Sections 7 and 11 of that Act.

CHIEF EXECUTIVE OFFICER CERTIFICATION

I, Ajei S. Gopal, certify that:

1. I have reviewed this quarterly report on Form 10-Q of ANSYS, Inc. (“ANSYS”);

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of ANSYS as of, and for, the periods presented in this report;

4. ANSYS’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for ANSYS and have:

    a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to ANSYS, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

    b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

    c. Evaluated the effectiveness of ANSYS’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

    d. Disclosed in this report any change in ANSYS’s internal control over financial reporting that occurred during ANSYS’s most recent fiscal quarter (ANSYS’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, ANSYS’s internal control over financial reporting; and

5. ANSYS’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to ANSYS’s auditors and the audit committee of ANSYS’s board of directors (or persons performing the equivalent functions):

    a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect ANSYS’s ability to record, process, summarize and report financial information; and

    b. Any fraud, whether or not material, that involves management or other employees who have a significant role in ANSYS’s internal control over financial reporting.

EXHIBIT 32.1

CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of ANSYS, Inc. (the “Company”) on Form 10-Q for the quarter ended June 30, 2018 as filed with the Securities and Exchange Commission on the date hereof (the “Report”), I, Ajei S. Gopal, President and Chief Executive Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

(1) The Report fully complies with requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, and

(2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

This certification is provided solely pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, and shall not be deemed to be part of the Report or filed for any purpose whatsoever.
